THE FIRST WITNESS

Investigation Into the Assault on the Baltimore Sailors Under Way at Mare Island.

Apprentice Talbot Takes the Stand: He Gives Stirring Testimony Aboard the Affair.

Besides Being Brutally Stabbed He Suffers Indignities From the Chilean Police.

SAN FRANCISCO, Jan. 8.—A dispatch from Vallejo gives the details of the investigation into the assault on the Baltimore sailors in Valparaiso, which began yesterday at Mare Island, in the presence of Judge Advocate General Remy, United States District Attorney Gartier and United States Commissioner Hanley. Remy conducted the investigation.

John W. Talbot, apprentice on the Baltimore, was the first witness. He was one of the liberty party on Sept. 16. He stated that C. W. Riggins, the boat-swain's mate, one of the killed, was with him during the afternoon. About 3 o'clock they went together into a saloon, called the "Shakespeare," in the southern part of the town. The proprietor ordered them out, declaring that a mob of disbanded soldiers were preparing to attack the sailors. He stated that he did not want any trouble in his place. Riggins and Talbot laughed at the warning and left the place going to the "True Blue" saloon. Coming out, he saw Riggins being threatened by the Chilean sailors in man-of-war uniform. I tried to act as a peacemaker, but they would not listen to me. One of the Chileans spat in my face, and I knocked him down. Instantly the crowd of over 100 people appeared on the scene and we started to run, but soon jumped on a passing car. The mob followed and we were soon surrounded. I saw Riggins fall and tried to reach him, but was stabbed in the back and turned to run. After going a few blocks I turned into a doorway and was again stabbed in the back. I got in, however, and took a position in a corner and defended myself with a knife. The mob followed me and a Chilean sailor in man-of-war uniform stabbed me again. The bar tender finally put them out and barricaded the door. The mob clamored outside for admittance, and after an hour a policeman arrested me and took me to jail. He dropped the case by putting a hat for sailors cap with the word "Baltimore" on it, so they would not know that I was an American sailor. The officer turned me over to two other policemen who struck me several times although I was making no resistance. I had no arms of any kind and was perfectly sober.

After a short time in jail I was sent to a hospital with Hamilton W. Palmer and Davidson, all badly hurt. We were kept there for days and then sent to the ship, where I was in the hospital 45 days. None except American sailors were attacked by the mob.

THE SITUATION ALARMING.

Absolute Anarchy Reigns in the Province of Tangiers.

LONDON, Jan. 8.—Absolute anarchy reigns in the town and province of Tangiers. The British minister, Sir Charles Even Smith, has sent a telegram to the minister of foreign affairs to the effect that unless the sultan took energetic measures to defend the town English sailors would be attacked. The minister replied that a large body of troops was coming from Fez. The French, Spanish and Italian residents resent the vigorous action of the English, believing that they are taking advantage of the local trouble to make a coup de main. The Italian and French vessels, expected hourly, The British vessels, three in number, have their boats ready to land blue jackets at a moment's notice.

Berlin.—The German frigate Princess Wilhelm has been ordered to Tangiers.

Shot For Joking.

ASHLAND, Wis., Jan. 8.—A cold blooded murder hooded a side track on the Omaha, one mile east of Sanborn, Wednesday evening about 8 o'clock. Oscar Johnson accompanied by his brother John, came to the house of one Blazer. When he stepped in to the house he asked for a cup of coffee, which was given him. After a few minutes Oscar pulled out a bottle, but could not remove the cork. He borrowed Blazer's pocket knife with which to pry it out, and after removing the cork, he took up the knife in his pocket, as if to keep it. This so incensed Blazer's wife that she ran and brought the Winchever rifle, which she cocked and handed to her husband, telling him to shoot. The fourth shot obeyed. Just as Oscar was passing out Blazer pulled the trigger and Johnson fell through the doorway into the snow outside dead. Under Sheriff Dowd left for this morning to arrest Blazer and his wife.

Advice to Young Enquirers.

LONDON, Jan. 8.—Mr. Gladstone in writing a declaration to join in the current discussion in the newspapers on the subject of modern criticism of the old testament, says, "I am under the impression that the Bible has undergone certain amount of revival of its authority in consequence of these criticisms. My own protracted observance of the controversy, parallel and in some important respects analogous, on the poems of Homer, compels me to entertain but a mean opinion of negative speculations." Mr. Gladstone goes on to urge young inquirers to beware of drawing their strength of persuasion and warmth of affection into the field, as if they had the force of argument.

Lynchers at Work.

VICKSBURG, Miss., Jan. 8.—The jail at Rayville was broken open last night by about 100 lynchers who took Cal Foster and Horace Disharoon, two negroes charged with the murder of a Jewish peddler, and hanged them to a tree near the jail. After the prisoners met their fate bravely and acknowledged their guilt.

HARRISON'S PROCLAMATION.

Will Force Our Southern Neighbors Into a Reciprocity Agreement.

WASHINGTON, Jan. 8.—The President's proclamation under the reciprocity section of tariff act states that in view of the provision in the reciprocity section of the tariff law of Oct. 1, 1890, making it the duty of the President after Jan. 1, 1892, to suspend by proclamation the free admission of sugars, molasses, coffee, teas and hides against such countries producing these articles, as after that date, maintain tariff duties upon any agricultural and other products which he may deem unequal and unreasonable, the President submitted to the attorney general the question whether the law authorized him to issue a proclamation fixing a future date when the duties imposed by virtue of the proclamation would take effect. The attorney general has given an opinion that the duties must be collected on and after the date of the proclamation, and that a future date cannot be named by the President. Owing to this decision Secretary Blaine yesterday sent notices to the diplomatic representatives of Austria-Hungary, Colombia, Hayti, Nicaragua, Honduras, Spain, Philippine Islands and Venezuela informing them that on March 15 next the President will issue his proclamation unless in the meantime some satisfactory reciprocity arrangement should be made with the countries named.

ILLEGAL COMBINATIONS.

Action to Break Up the Trans-Missouri Freight Association.

TOPKA, Kan., Jan. 8.—This afternoon District Attorney J. W. Ady filed a petition in the United States circuit court beginning an action the result of which in any case will be of the gravest moment to the central West. The purpose of the action is no less a one than to break up the Trans-Missouri Freight association, to which 15 traffic lines belong, and it is brought under the anti-trust act of congress of July 2, 1890. It proceeds upon the proposition that the association is an illegal combination and conspiracy in the restraint of trade and commerce, and to monopolize the trade and commerce between the states and territories of the United States.

Famine Lottery a Failure.

LONDON, Jan. 8.—The Standard publishes a St. Petersburg dispatch, which says that the Russian minister of the interior has been the scapegoat for official blundering in connection with famine relief measures, and that he will probably be dismissed. Notwithstanding the fact that the recent lottery for the relief of the famine sufferers was a failure, tickets for four similar enterprises are being printed by the government printers.

At Moscow the merchants are complaining that the \$50,000 netted from a Grand Duchess Elizabeth's bazaar came out of their pockets twice. The goods it appears, were largely furnished by them at the solicitation of the grand duchess. The bazaar sales ruined the donors' Christmas trade to such an extent that a number of failures are feared.

Against the Whisky Trust.

CHICAGO, Jan. 8.—District Attorney Mitchell will make an effort to have the United States grand jury indict the violators of the anti-trust laws, the Distilling and Cattle Feeding company of Illinois, who are known as the "whisky trust," located at Peoria. The main evidence he has against the trust is a "rebate certificate" forwarded to him by the H. Alexander Drug and Seed company, Atlanta. The charge is that the trust has put up the price of alcohol 5 per cent above the market rate, and that its agents and sell only at such rates as it describes. It is regarded as a roundabout way of lining every dealer who does not buy and sell as the trust directs him.

Mrs. Graves Improving.

DENVER, Col., Jan. 8.—The attorneys for Dr. Graves have made a motion for an arrest of judgment and for a new trial. The motions will be argued Saturday. Mrs. Graves is improving slowly.

Walter A. Wood Dying.

TROY, N. Y., Jan. 8.—Walter A. Wood is reported to be dying at his home in Troy. He was the first cracked with the grip, pneumonia followed and there are marked indications of heart disease.

A Whispering Telephone.

BOSTON, Jan. 8.—The Boston news bureau says: "We are able to announce that the American Bell Telephone company has so far forwarded its experiments in the telephone field that it has perfected a telephone by which whispers can be transmitted 500 miles with perfect distinctness."

TELEGRAPHIC BRIEFS.

The New York chamber of commerce has resolutions calling on the legislature for an appropriation of not less than \$1,000,000 for the representation of the state at the World's fair, Chicago, 1893.

Three more men were arrested in Chicago yesterday in connection with the gang of bank swindlers who have been borrowing money from the capitalists on forged mortgages placed on city property owned by residents of the city.

Ts'o prisoners are Jos. B. Beach, Harry Osborne and H. C. Anson, president of the Wabash avenue firm which vouches for Wilcox, the applicant to Press & Co., for a loan of \$4,000.

The earl of Lyfchfield is dead. He was born in 1825 and was descended from Admiral Anson, who made the famous voyage around the world.

Max Haymann, a banker at Regensburg, Germany, has failed. His liabilities are heavy and the unexpected collapse of his institution, which has enjoyed a high standing, causes a sensation in the city and neighborhood.

A man named Kitchenbox has been arrested in Germany and handed over to the Russian police on the strength of his own confession that he was a party to the attempted murder of the czar in 1881.

Six boilers at the Braddock wire works, Rankin station, near Pittsburgh, exploded at 9:30 last night, instantly killing Peter Kelly, a German engineer, seriously injuring James Carpenter, the fireman, and slightly hurting about a dozen other employees. The works were partially wrecked.

DEATH IN A MINE

A Gas Explosion Causes a Terrible Disaster in the Osage Mine at Krebs.

Over Two Hundred Miners Entombed With but Slight Chances for Escape.

The Pit Surrounded by Agonized Relatives Who are Powerless to Render Succor.

SOUTH MACALISTER, I. T., Jan. 8.—News of the mine disaster in the Osage mine at Krebs, five miles east of here, is coming in very slow. It is learned that at the time the explosion occurred nearly 350 men were in the shaft. Most of them had stopped work for the day and were waiting their turn to run out in the cage. They had congregated near the bottom of the shaft and that locality is completely jammed with dead bodies. It is stated that 85 men succeeded in reaching the open air by means of an abandoned shaft. About 10 miners were rescued by means of buckets lowered by the rescuing party outside the shaft.

At daylight this morning 10 dead bodies were carried to the surface. They were so badly bruised and blackened as to be scarcely recognizable. The mouth of the pit is surrounded by a crowd of men, women and children, nearly all of whom have relatives in the mine. Their grief is pitiable and their prayers and cries are agonizing as they beseech the rescuing party to increase their efforts to save the loved ones.

Of the eighty-five men who reached safety by means of the old tunnel, over half of the deceased injuries more or less severe and many of them are so badly injured by shock and bruises that it is feared they will not recover.

It is believed that the explosion was caused by firing of a shot when the mine was partially filled with gas. At present writing 223 miners are unaccounted for. Of this number it is believed that nearly 100 and perhaps more are already dead. Owing to the great excitement at the scene of the disaster and the distance from any telegraph office it is impossible at present to get a list of the dead and injured.

St. Louis.—W. Farnham, vice president of the Osage Mining company, has just received a telegram from the superintendent of the mine. The dispatch was dated at 9 o'clock this morning and says: "At what hour 143 miners had been rescued. The men were greatly exhausted and some of them were unconscious but revived after reaching the fresh air. The telegram did not say how many were killed, nor how many were still entombed in the mine. Mr. Farnham says the miners were all white, and many of them have large families. Everything possible will be done to relieve their families."

CAPITAL CULLINGS.

No Session Today; Tom Reed Back; Blaine Attending to Business.

WASHINGTON, Jan. 8.—Secretary Blaine spent the morning in his library at home with his private secretary, going over a number of documents which had been submitted from the state department for his examination. When the United Press representative saw him he had apparently just recovered from the attack of Wednesday and was engaged at work with his usual zest. He had felt quite well and had been able to eat a satisfactory breakfast. Later in the morning he went to the White House and attended the cabinet meeting. The first time he has been present since Tuesday last week.

Ex-Speaker Reed, who has been at home during the holidays, returned to Washington last night. He will remain until the close of the session.

Neither house of congress is in session today.

THE KHEVIE'S DEATH.

The Cause of Considerable Uneasiness in French Diplomatic Circles.

CAIRO, Jan. 8.—The funeral of Tewfik Pasha, the late Khedive of Egypt, who died yesterday, will take place this afternoon. Prince Abbas, a youth of 17, the eldest son of the dead ruler of Egypt and her to the throne, was traveling in Austria when his father died. He is now on his way to Egypt on board a special steamer.

Paris.—The Sicile, Autorte, Gaulois and Voltaire are urging France to interference in Egypt with the view of establishing a regency in that country with a French representative in such a body. Considerable uneasiness is felt in diplomatic circles as to the outcome of the present difficult and delicate state of affairs.

The Mesaba Terminals.

An article appeared in a morning paper today which is so misleading and inaccurate as to demand correction. The article stated that at a meeting held yesterday the question of the terminals of the Duluth, Mesaba & Northern was finally settled. Such is not the case. Absolutely nothing was done. The question of Mesaba terminals is entirely unsettled and in fact no nearer settlement than it was some time ago. The Mesaba people are very anxious to have the matter settled up, but nothing has been done. The part of the article touching on the Winnipeg road about equal in reliability that part which related to the Mesaba. The statement that an informal conference of a few business men was held, was correct.

DYNAMITE PLOTTERS UNEARTHED

A Dangerous Gang of Dynamiters Arrested at Walsall Last Night.

LONDON, Jan. 8.—The dynamite plotters having, as is said, connections in the United States and on the continent who were arrested last night at Walsall, near Birmingham, were formally charged before a magistrate this morning and were remanded in order to enable the police to complete the chain of evidence being forged against them. These arrests following close upon the explosion at Dublin Castle have caused a sensation of the first water and naturally it is inferred that the dynamiters are in some way connected with the explosion. Scotland Yard detectives have been working for months on clues furnished them from the United States in the effort to unravel an extensive anarchist conspiracy which was said to exist in England. At Walsall Inspector Melville had a so-called socialist club under supervision and he became convinced that some of its members were engaged in the manufacture of dynamite bombs, and last night he with a force of police raided the club and arrested Victor Calles, described as a clerk, Frederick Charles, said to be a moulder, and a woman said to be the wife of Calles. They were all charged with conspiring with Deaken, who was secretly arrested in London, to manufacture bombs for the purpose of outrage.

The bombs were reported to have been intended for use in extorting money from rich men and for the use of anarchists in the course of settling differences of opinion with the crowned heads of Europe. The bomb manufacturers were said to be in receipt of remittances from the United States. It is rumored that the woman arrested has turned queen's evidence.

GEN. MILES TALKS.

He Thinks the Mexican Army Capable of Subduing the Rebels.

CHICAGO, Jan. 8.—Gen. Nelson A. Miles and party returned from Washington yesterday. The general was seen at the Virginia in the afternoon by a reporter and said: "My visit to Washington had no official significance. My wife and I went there to attend the marriage of Miss Rachel Sherman. I anticipate no serious trouble on the Mexican frontier. So far as our government is concerned, all we have to do is to keep the insurgents off from our territory. This trouble is surprising. There are a lot of fellows down there ready to fight at any time. I think the Mexican army capable of subduing the rebels. The Mexican government has about 25,000 troops, while Garza is said to have only about 5000. As to whether the clerical party of Mexico is using influence in favor of Garza I cannot say."

JUDGMENTS GALORE.

The Myers Case Decided; The News Sued; Tomorrow's Special Term.

The lien cases brought against the Myers Park terrace property were decided by Judge Ensign as follows: The Northwestern Adamant company is given judgment against Bert McCartney for \$275, and the latter against Onker, the original contractor for \$600. Against the property Bradley & Hanford, \$100; the property of J. B. Dixon, \$13; Duluth Hardware Co., \$13; R. T. Lock, \$85; Geo. Lautenschlager, \$93; C. D. Hoffmann, \$125; A. A. Pond, \$95; A. W. Holbrook, \$145; Blossom Bros. & Co., \$24; J. C. Johnson, \$329; Paul Howe, (labor) \$40; Simon Picker, (labor) \$47; J. D. Crowley, \$60 and Wolf & Beggs, \$137. L. W. Meinig, \$121 and J. J. Costello, \$635, are rendered as personal judgments against Myers. The case has been one of the most vexatious and troublesome tried for some time.

This afternoon the case of W. C. White, trustee, vs. The Huerfano Refinery company was taken up and is now being heard. It is the last of the cases in the November term. Suit has been begun by C. H. Graves against the News Publishing company to recover \$1800 due on interest bearing bonds issued in 1888 and due in 1891.

Up to this afternoon there were only three cases on the calendar for tomorrow's special term. One, a case that had been continued and two hearings in the matter of assignments.

"After Dark."

One of the sensational features of "After Dark," which plays at the Lyceum Saturday evening, is a gambling den which is revealed in full operation, and a raid by the police is announced. In an instant the picture is reversed, displaying familiar and praiseworthy notice, the gambling paraphernalia disappear and in place of which are hymn books, tracts, etc., giving the appearance of a Salvation Army meeting.

ADVICE TO NON-RESIDENTS.

How Their Realty Interests in Duluth Can be Greatly Enhanced.

Those who are non-residents of Duluth are of course desirous of having a perfectly reliable agent in the city, every one likes to feel that their business is in safe hands, in their agent's hands as in their own. You should therefore make it a point to select the best and at the same time a perfectly disinterested and honest man as your agent. When in Duluth you should call at 202 Palladio Building and have a talk with Franklin W. Merrill. We know that when you have seen him face to face and have observed his business methods and his live alert and trusting qualities, that you will decide that no other Duluth man can take his place as your agent here. He is the right man in the right place. If you want to make investments in Duluth and are a stranger in the city or a resident who is unacquainted with values and prospects of different localities, you should trust to the judgment of some one who is thoroughly posted in these particulars. Such a man, the peer of your most sanguine hopes will be found at 202 Palladio Building.

FURNITURE FACTORIES

What has been Accomplished by Them in Duluth During the Year Just Closed.

The Past History and Future Prospects of an Important Duluth Industry.

Furniture Making Still in Its Infancy, But a Hint of Great Future Promise.

The following review of the local furniture trade and its possibilities at the head of Lake Superior appeared in the annual "Buyers Review" of the Furniture News, one of the leading trade papers of the country:

"By spring there will be four furniture factories at the head of Lake Superior, as well as several concerns whose wood-working plants are almost in the furniture line. These are the Duluth Furniture company, which has been in business a year or more; the Webster Chair company, which moved from Southeastern Wisconsin to Duluth nearly a year ago; the Herman, Beckinger & Herman factory at New Duluth, and the Richards & Poole factory, also at New Duluth. All of these except the latter are in successful operation. Richards & Poole have their brick buildings completed and will put the machinery at once for a complete factory, which they expect to have running in April or May. So that while the Duluth Furniture company is an enthusiast at the Minneapolis convention a year ago, that in a year we have a dozen factories."

"These concerns have found a good market and have evidenced the fact that the head of the lake is a good place to manufacture furniture and that excellent timber is adjacent in large quantities. Already one hardwood mill is running here sawing up a beautiful lot of oak, while another large band mill expects to make a specialty in hardwood lumber. On the line of the Duluth, Reel Wing & Southern, now being built between central Wisconsin to Stillwater, there are very large tracts of hardwood lands, chiefly oak, which on the Duluth & Winnipeg are thousands of acres of ash, elm, oak and birch timber, and on the Duluth, Duluth & Iron Range and Duluth, Mesabi & Northern, run through fine tracts of oak and birch, and on the south shore of the lake and on the railroads running between Duluth and Ashland are many tracts of hardwood mingled largely with the pine."

"Of these local factories, the Duluth Furniture company is the oldest. It is now employing about 200 men, and is engaged largely in specialties, a folding bed being their chief. It does a good trade in order goods, under to special design, and is reaching out both east and west in its trade. Just now it is running largely on a special sideboard, which seems to take well."

"The Webster Chair company has had a well established trade before it came to Duluth, and sells its goods largely in St. Paul and Minneapolis. It is employing about 200 hands, the major part being women and girls, who are doing all parts of the handwork about the establishment. It is turning out about 6000 chairs per week, mostly medium grade, solid wood, and is coming to be known at the trade and the outlook for this season is in its line."

"Herman, Beckinger & Herman have but lately started their factory, though they run a sawmill for a year. They make a specialty of cheap furniture, and are finding an excellent market for all they can produce. They are employing about 60 men and boys. Richards & Poole are just completing their buildings. They have not decided just what they will do in their new factory, but expect to get their machinery in place and made up before April. They have abundant capital and run a single band mill at which they will this winter saw 4,000,000 feet of hardwood, in connection with one or two other furniture plants have been expected to locate at some of the towns about the head of the lake, but have so far failed to gratify the desires of the willing land companies. As far as can learn the present concerns will welcome additions to their ranks with great joy."

"The Hurd refrigerator company, which makes an article of furniture in great demand in the kitchen, has just started its new plant. It has so far put 60 men to work and will soon increase this number to 100. Mr. Hurd, the manager, was the inventor of the famous Alaska refrigerator and managed the Michigan city works where it is made for some nine years. The West Duluth manufacturing company, which has made a good deal of excellent street and office furniture, has suspended operations pending the removal of its buildings to a site close to two of the big saw mills. Scott & Holston are doing a large business in interior hardwood finish."

A GAME OF FREEZEOUT.

But the Spectators and the Defendants at the Lind Case are Worried.

Augusta Lind and Andrew Hanson were given a preliminary hearing on the charge of adultery against them and were both held to await the action of the grand jury, yesterday. Bail was fixed at \$300.

An amusing incident of the trial was a contest between the judge and the spectators, yesterday. The judge did not clear the court but he cooled the ardor of the spectators very effectively. By his order the two windows directly above the crowd were pulled down to the lowest level and the five degrees below zero wind dropped down on the shivering crowd in heavy lumps. But they were game and the result of the contest was about a "tie."

Hunter's Park Improvements.

The coming spring will see some marked improvement at Hunter's Park. W. A. Holgate is now building there a residence which will cost \$2000, and when this is completed will build three other very pretty houses, which will be rented, very pretty union chapel for the use of all residents will also be built. No definite plan has been decided upon, but the structure will be gothic in architecture and of rough stone. A number of other improvements are contemplated, but plans for them are not yet matured.

An Evening Blaze.

The department was called out last evening by a blaze in the residence of E. Chapman, on Fourth avenue east near Ninth street. It was necessary to lay a line of hose from Fifth street to get water. The house was valued at about \$500 and the contents at about the

THE ALLIANCE ACTION.

What They Have Done and Will do Regarding the Coming Election.

There is an element in the political situation that has hitherto been neglected in the calculations, which is likely to make a considerable showing when the vote comes to be counted in February. This element is the vote of the farmers' alliance, which paradoxical as it may seem controls a large number of Duluth votes. The alliance includes not only the members of that organization alone, but the following of nearly every other independent political movement as well. The peoples party would be a much more proper name for the organization and this name would be used but for one reason. To get the candidates of the party on the ticket it is necessary to use the name already adopted and used in former elections or else a petition will be required under the state law for placing the names of the candidates on the official list.

There have been some movements in the alliance city committee of late which mean something, although their import is not entirely clear. A meeting of the city committee was held last Saturday night at Mr. Parson's office and a candidate for mayor on the alliance ticket was discussed. The result was not as announced in the papers of the next day. A vote was taken and it was unanimous in favor of Mr. Davis not being a candidate. The alliance follows under good control, and what ever policy is dictated by a few leaders will be followed almost implicitly. All of which means that Mr. Davis will be the candidate for mayor on the alliance ticket, no matter what may be the outcome of the conventions of the other two parties.

All of this is simple enough. The unusual feature of the case is the resignation of Mr. Baker, the chairman of the city committee. His resignation has been made public and even now, though his successor is already pointed, his name is not yet known. Mr. Baker is recognized as a strong Davis man and his resignation would seem to indicate that things had gone against him, but Mr. Baker himself is authority for the statement that such is not the case. His resignation then must mean that he does not care to be hampered by the chairmanship, but wants to be free to work for his favorite candidate in a way that he could not do, if at the head of the city committee. Then, too, it does not care to appear as if dictating the policy of the alliance party, for such action might reflect upon the chances of his candidate, if he should remain at the head of the organization and force the nomination of Mr. Davis.

A call for an alliance city convention will be issued very shortly and then the intentions of the party will be declared. A full city ticket and address for each ward will be nominated. It is probable that the convention will be called before the date of that of the republicans if only for the moral effect which the naming of Mr. Davis will have upon the action of the city republicans. Mr. Davis has already signified to the alliance leaders his intention of accepting the nomination if it is offered him.

The date of the democratic convention is still undetermined, but it is certain that it will be earlier than that of the republicans. The latter have a certainty of holding the last convention. The state law requires that the names of the candidates be filed with the city clerk at least ten days before the election. To fulfill this condition no convention can be held later than the date fixed by the republicans.

Irish Federation Meeting.

A regular meeting of the local branch of the Irish National Federation of America was held in Catholic Association hall last evening. A committee was appointed to make arrangements for the reception of Dr. Fox, M. P., who is expected to be in Duluth in a week or two. The secretary was instructed to correspond with Mr. Wm. Paul, Kelly, president of the federation for Minnesota, in reference to the matter. The next meeting will be held on Thursday, the first and third Thursdays of the month.

Mesabi Iron Stocks.

Stock in the three Mesabi company's which are not actively on the market are selling now at about the following figures: Mountain Iron, 60 to 62; Hibbard, 25 to 27; Cinnabara, 20 to 22. This is a remarkable advance for all three. Of the many other companies incorporated at the west range lately, few have done much in the way of transactions and many do not intend to sell stock at all.

A Prospective Elevator.

There is every probability of another large grain elevator being built at the head of the lakes. A letter has been received from J. P. Baker, of the Denton Transportation company, Bismarck, N. D., in regard to the building of an elevator by that company. The Denton Transportation company is the largest elevator company in the west, having a line of elevators throughout the Dakotas. Mr. Baker states that if they decide to build another house here it will result in their making headquarters in this city.

To Reopen the Case.

A number of affidavits in the case of J. B. Dow vs. the Northern Land and Loan company were filed yesterday. The affidavits were in support of a motion to have the judgment which has been entered in the case, reopened. The case is an old one and has already been before the district court several times.

Cheerfully Corrected.

In mentioning the business done by the American Exchange bank, some days ago, an error was made in giving the amount of profits earned by the institution for the past year. The net profits for the year were \$45,000. A dividend of 10 per cent was declared upon all the stock. The rest was turned into surplus and the latter now amounts to \$310,000.

The Andrews in "Falka."

The Andrews company played "Falka" last evening to another large audience. The music is bright and catchy and was in the main well rendered. Miss Nannie Wilkens, as Falka, made a winsome, pleasing, away, and Parker, as Arthur, though unconventional in makeup and manner, was also very good. A letter was received last night, "Slumber, Oh Sentinel" was specially gypsy queen and the trio "O Joy, O Joy" was excellent. Taylor gave a dignified and often excellent, to the part of Jancut, but as usual proved a favorite. Neither Ed Andrews as Falback nor Geo. Andrews as Boleslas was at his best though both did well. The opera as a whole was as well received as any which the Andrews people have given and the company was rewarded with two curtain calls. Tonight "Mariana" will be given.

TO WATCH WASHBURN

A Representative of the Duluth Board May be Sent to Washington for That Purpose.

The Washburn Bill Means Death to the Western Boards of Trade If Passed.

Opinions of Duluth Grain Men as to the Best Way to Defeat the Measure.

The Washburn bill, which places a tax upon option dealings in wheat, is a matter of great interest to Duluth wheat men and is a subject of general discussion among them, both on the board and elsewhere. There is a unanimous feeling that something ought to be done, but a little doubt as to just what shape that action should take. It will be remembered that a short time ago a committee from the board of trade here waited on Mr. Washburn and tried to influence his intended action, but with no very great results. Now it is felt that some decided action must be taken. It was said this morning on the street that the board had decided to send a man to Washington to lobby against the proposed measure. But this has not been decided upon.

In reference to the matter President Macleod, of the board, said this morning: "The matter is one which we consider of great importance. The bill if passed and enforced will destroy the smaller boards of trade and have a tendency to throw the entire wheat business into the hands of the big presses, exporters and Eastern grain men. Such being the case we can expect no help from the Eastern boards of trade. They will benefit rather than suffer by the proposed measure and will aid instead of oppose it. The action then must come from the Western boards of trade. The brunt of the fight will fall upon Duluth and Minneapolis, and I should not be surprised if we were compelled to take the initiative in the matter. Just what we will do is uncertain. If any other board should send a representative or a delegation to Washington we should follow the example, without doubt. Whether we will lead in the matter or not I cannot say as yet. The board is not carefully considering the matter as yet, and until they have done so I would not care to express an opinion. From the Chicago board of trade we will probably receive some support. The measure will have a tendency to hurt their business and while it is not so vital to them as it is to us, I think we can count on their cooperation." Mr. Daggett when asked about the matter expressed largely the views held by Mr. Macleod, but apparently did not greatly favor a Washington lobby. "The measure, he said, is an unjust one and one that would be condemned by popular opinion if it were thoroughly understood. I doubt if sending a man to Washington would do any good, but I do think that some new paper attention to the subject would lead to good results."

Col. Graves was very non-committal. "I did not even know that sending a man to Washington had been considered," he said, "and can hardly express an opinion as to the advisability of such a course. If, however, representatives for such a purpose were appointed at the Pioneer Fuel company's office, hotel St. Louis, 326 Superior street, 12 m., -3:30 p. m., 3:30 p. m., 5:00 p. m., 7:30 a. m., -2:30 a. m., -3:30 a. m., 4. The home of A. M. Prudden, 24 Seventh avenue west, came near being burned last night. The servant girl who is sick with grip was bathing in the bathroom upstairs when she fainted and fell over the lamp which immediately set fire to the room. The nurse who was in attendance hastily removed her patient and Mr. Prudden managed to smother the fire with a wet carpet. The family who are all ill with grip were much frightened, but no one was injured.

Duluth methodists, who are just building a fine \$110,000 church, have a new idea on foot for the use of the property occupied by the old house of worship. They have an excellent corner, centrally located, on Second street and Third avenue west, and they propose building thereon a residence terrace of half a dozen or more dwellings at a cost of about \$35,000, the net profits of which shall be paid out of the general fund. That is to say that the people back on Ninth street not only will not be aided in clearing their streets, but will more over have to help pay the expenses for those that are cleared. The ordinance providing an equitable method for the expense incurred.

The local market opened with a weaker feeling, especially in futures, due to weak cables. London wheat market was dull, 6d lower and Liverpool 1d lower. Later cable reports were better. The shipments of wheat and flour from New York were larger yesterday, amounting to 610,686 bu. Today 610,000 bu. of wheat and flour were taken from New York, Boston, Philadelphia and Baltimore.

Since reciprocity treaties with the West Indies, whereby the duty was decreased on American breadstuffs or entirely removed, there has been quite a picking up of that trade in New York. Shippers say that the results of the new law will be surprising. Agents of the Porto Rico Steamship company report that 300,000 bags have been ordered for export from Baltimore, which is over 100 per cent of the whole of the exports of the United States to both Cuba and Porto Rico in 1891. The Question of Transportation to Again Come Before the House Next Week.

Chairman Blount Believes the Senate Resolution Will Eventually Pass the House.

He Does Not Believe the United States Will Declare War Against Chile.

WASHINGTON, Jan. 9.—The motion made by Chairman Blount, of the foreign affairs committee, for a reconsideration of the vote by which the house indefinitely postponed the senate resolution appropriating \$100,000 for the transportation of supplies to Russia, will be called up next week and from what Mr. Blount says it seems likely to pass.

In conversation about the matter, Mr. Blount said: "When the resolution came before the house it had passed the senate without investigation, and there were a number of questions asked there that could not be answered. It was not known definitely whether the ships of the navy could carry the flour and grain contributed, nor could any one tell what disposition the car would make of the supplies when received."

I believe that the house will now agree to allow the resolution to be referred to a committee where it can receive careful attention, so that when it is again considered by the house all inquiries concerning the matter can be satisfactorily answered upon official information. Speaking of the Chilean situation Mr. Blount said: "There is nothing to do until the correspondence is sent to congress. While I do not know definitely, I am of the opinion that it is perhaps best that the correspondence be sent in until it is complete. I do not believe that there will be any declaration of war. Certainly the house will not declare war without sufficient cause being shown. The correspondence will without doubt be sent to congress, and should the country have the right to know its contents."

DUN'S WEEKLY REVIEW.

Trade Fair for the Season With a Roseate Outlook.

NEW YORK, Jan. 9.—R. G. Dun's weekly review of trade will say: The first week of the new year has shown an important decline in the prices of wheat and cotton, which have been of late a little too high for foreign estimates of value, so that exports were somewhat checked. The decline will bring out larger orders for export. Cotton has dropped to the lowest price since 1890, viz: 7-14. The middle of the upland, and the South cotton is not greater than last year. At Galveston trade is very conservative, with failures much exceeding those of last year in number; at Savannah trade is quiet though money is easier, and at New Orleans banks are easier and a better feeling is seen in the money market, though unusual quantities of cotton, sugar and rice are being carried to the coast. The price of the country is fair for the season. At Cleveland trade is good for the season and rolled iron in good demand. At Pittsburgh the outlook is better.

Chicago reports some increase in receipts of barley, cured meats, cheese and cattle, though the demand is beyond last year's, of flour, corn, rice and dressed beef fully double, and of wheat three times last year's. Dry goods of all kinds are in fair demand with the supply good for ample and legitimate trade, and heavy snow has helped the lumber business. At St. Paul trade is quiet, as usual, with excellent prospects. At Minneapolis the car famine is the only drawback to the business. The output of 17,000 barrels against 114,000 last year's with lumber sales of 1891 exceeding those of 1890 by 67,000,000 feet. At St. Louis cold weather causes better trade in heavy clothing and other trade is seasonable. The grain blockade has broken Trade at Kansas City is quiet and money in light demand.

Collections throughout the Northwest are very fair, though the slowest of the Southern ports. The great industries report no important changes, though in iron a large business is being done and one tone is improved. Some improvement is seen in bar and plate, and fair business in structural iron. The coal trade is sagged, though the demand is beyond all precedent. Less demand is seen for copper, though large sales have occurred. Tin is weaker, and lead dull, and other metals throughout the North are easier.

The business failures during the eight days ending Jan. 31st number for the United States 335, and for Canada 42, or a total of 375, as compared with the total of 320 last year. For the corresponding week of last year the figures 403, representing 375 in the United States and 28 in Canada.

Elevator Men Assail. LACROSSE, Wis., Jan. 9.—W. E. Coates & Co., wheat buyers, who own a line of elevators on the Milwaukee road, with headquarters at Sparta, made an assignment last evening. The bank of Sparta is said to be the receiver. Mr. Coates is at present mayor of Sparta. Assets and liabilities are not yet known.

AMUSEMENTS.

The Andrew's Company Give an Excellent Program of Maritana. "Maritana" given by the Andrews company last evening was the best thing which they have yet done, and this despite the fact that it closely approaches the line of good opera. Mr. Taylor and Miss Fitch divided the honors, and both showed they were capable of things above opera bouffe. Their duet in the act, was truly artistic and won an enthusiastic encore. Miss Fitch and Miss Clayton scored another artistic success by their duet "Holy Mother Guide His Foot Steps."

All of the principals in fact, were in excellent voice and the production was with an unexpected dignity and dash. At the matinee this afternoon the "Pirates of Penzance" was given and this evening "Iolanthe" will be given.

"After Dark," a realistic melodrama, will be given at the Lyceum this evening by a strong company headed by W. A. Brady. The play is a study in the settings, including a gambling room, a concert hall and London at night.

FROM OCEAN TO OCEAN.

The Canadian Pacific Seeking a New Outlet to the Atlantic.

MINNEAPOLIS, Jan. 9.—The Canadian Pacific is constructing a line in a southerly direction from Regina and this line will connect with the Valley City extension of the Soo line, in which the Canadian Pacific owns a controlling interest. When this connection is made there will be a continuous track from Vancouver, on the Pacific coast, by way of Regina, Valley City, Minneapolis and Sault Ste. Marie to Halifax on the Atlantic coast. This will make the route utilized by the Canadian Pacific in transporting its immense traffic from ocean to ocean.

ONE HUNDRED ARE DEAD.

The Work of Rescuing the Entombed Miners Still Continues.

SOUTH McALLISTER, I. T., Jan. 9.—So far 12 bodies have been recovered from the Oage mine at Krebs. The work of rescuing the buried miners continues. Men are being brought to the surface every hour, although so disfigured as to be unrecognizable by their friends. There are probably about 100 men killed with about 50 wounded.

POWDERY ON IMMIGRATION.

He Makes a Strong Plea for Effective Immigration Restrictions.

PHILADELPHIA, Jan. 9.—General Master Workman Powderly has issued an address on the Chinese immigration question in which he says that had not the tide of Chinese immigration been checked, there would not be a white laborer at work West of the Rocky mountains, while those East of that range would be retreating before the barbaric hordes who work almost for nothing.

Mr. Powderly makes a strong plea for the restriction of immigration "of a kind that is scarcely any better than that which would like very much to have a go with Slavin, but it looks very much now, after all his statements to the contrary, that he is trying to avoid a match with me. I am in my four with my theatrical manager comes to an end, and I would like to have a match arranged with Slavin. The United States and Canada should no longer constitute the safety valve of Europe. Self-preservation is the rule of the correspondence, and the tide is coming to state fearlessly and unequivocally that immigration of today is a curse to those who are here, as well as to those who come."

In conclusion Mr. Powderly urges all members of the order to work for the restriction of immigration and the election of United States senators by direct vote.

BETTER THAN BI-CHLORIDE.

Sullivan Signs the Pledge and Now He Is Spooling for a Fight.

PORTLAND, Ore., Jan. 9.—John L. Sullivan said yesterday: "I have stopped drinking liquors. I have sworn off for a year and I intend to keep the pledge. I am going to have a go with Slavin, but it looks very much now, after all his statements to the contrary, that he is trying to avoid a match with me. I am in my four with my theatrical manager comes to an end, and I would like to have a match arranged with Slavin. The United States and Canada should no longer constitute the safety valve of Europe. Self-preservation is the rule of the correspondence, and the tide is coming to state fearlessly and unequivocally that immigration of today is a curse to those who are here, as well as to those who come."

WONDERS OF THE MICROSCOPE.

Prof. Henry Tolman of Chicago Gives an Interesting Lecture.

It was a large audience that gathered at the Lyceum last night to hear Professor Tolman, of Chicago, on "The Wonders of the Microscope," every sent in the balcony being taken. Walter Watt was introduced by the lecturer, assisted by a stereopticon under charge of G. V. Quillard, presented an object lesson on light, though paying the lecture a special reference to the insect world. The flea, the fly, the skipper, the tick, the bug, the tick, and the insect world. The human family were analyzed in all the wonder of their minute anatomical mechanism. The trichine worm, which abides in the muscles of the hog also received attention. The lecture was interesting throughout, while the pleasure of the evening was enhanced by a solo from Miss Margaret McDonald, of the pro-cathedral choir, who received an encore and responded with "The Maid of Dan-dee," Sydney Brown acting as accompanist. The audience was well pleased with the lecture, and the next Tuesday to hear President Northrop, of the state university, on "Historic Lessons."

HEADED FOR DULUTH.

An Eloping Couple From Crookston. Wanted by P. Rice, Expected Here.

An elopement reported to have taken place at Crookston in which George F. Schoonover, of Rosseau, and Miss Mary Newman, the 14-year old daughter of a respectable family living near Thiel River Falls, are the participants, is likely to have a local interest here. The young girl had been working in a hotel at Crookston for a long time and here it was Schoonover met her. He told her he was a deputy United States marshal. Schoonover left his wife and family of seven children at Rosseau in destitute circumstances. The runaway couple headed for Duluth, but as yet have not put in an appearance. The police are on the lookout for them.

The Democratic Convention.

Chairman Truelson, of the democratic committee, has called a meeting to be held this evening, and a date will be fixed for the democratic caucuses and convention. They will be held some time about the 17th. It is not improbable that a meeting of the advance committee for calling a convention will be held tonight as well. The official call for the republican convention has been issued. The total number of delegates will be 42. There is very little political gossip near Thiel. The Second ward presents a good array of candidates for aidemen, with no one greatly in the lead. It is said that G. H. Holten, ex-clerk of the municipal court wants to be special judge. Candidates for mayor are still coy, but a crop of them may be expected to declare themselves soon.

WAS HE POISONED

Starting Rumors Circulating as to the Real Cause of the Khedive's Death.

Thought to Have Been Poisoned at the Instigation of the British.

Who Desire to See Egypt Become a Portion of the British Empire.

CAIRO, Jan. 9.—The most startling reports are in circulation as to the real cause of the khedive's death. They obtained circulation soon after the pasha died and increased in strength until the authorities, British and Egyptian, could no longer ignore them. They were in effect that the khedive died under suspicious circumstances, at least, and it was added that it was possible that he was poisoned. The French minister, it is stated, has instructions from his government to have the matter thoroughly investigated. In any case an official inquiry into the real cause of the death of the khedive was hurriedly ordered and the results of the report made to the Egyptian government seems to show that there was at least some foundation for the alarming rumor.

A story told in its substance that Dr. Salem Pasha, who attended the khedive, simply blundered, and that when he discovered he had caused the khedive's death he ran out of the Helwan palace and drowned himself. As his body is not known to have been recovered this story does not find many believers among the European portion of the population. As for the natives, they are firmly impressed with the belief that he died from poison administered to him at the instigation of the British or at the instigation of others who desire to see Egypt become a portion of the British empire. Threats of vengeance are to be heard on all sides, and there have been numerous gatherings in all the different parts of the city. The police break up these meetings so soon as they are formed. This, however, does not tend in any way to allay the fever of excitement which has taken possession of the people. No outbreak is apprehended in spite of the serious state of affairs existing as the military authorities have taken measures to deal promptly and effectively with any disturbances. The European troops are said to be on guard to have a go with Slavin, but it looks very much now, after all his statements to the contrary, that he is trying to avoid a match with me. I am in my four with my theatrical manager comes to an end, and I would like to have a match arranged with Slavin. The United States and Canada should no longer constitute the safety valve of Europe. Self-preservation is the rule of the correspondence, and the tide is coming to state fearlessly and unequivocally that immigration of today is a curse to those who are here, as well as to those who come."

Succeeds His Father.

The sultan has formally appointed Abbas to be khedive in place of his father. This prompt action on the part of the port gives much satisfaction to the British element here. Abbas has been the son of the late Khedive, and President Carnot on his accession to the throne.

Reckoning Without Their Host.

The London Times, referring to the message of sympathy sent by President Carnot to Prince Abbas, the new Khedive of Egypt, says that Mr. Carnot has dashed to the ground the wild hopes of the French press that a regency would be established in Egypt, and that there would be no other interference with the accession of Prince Abbas. The Times adds that the French were reckoning without their host if they imagined that whatever extra movements there may be to Gladstone's mind that any large body of his followers would consent to abandon Egypt to any power.

THE HUSTLER WHO HUSTLED.

A Few Passing Thoughts on a Pleading and Popular Theme.

During the last year there has been considerable changing around among real estate men in Duluth. Of many of those who have left the city, it can be said that the places that once knew them now know them no more forever. Some have sloped to pastures green and taken their goods and chattels with them, while some have eloped not with a descendant of Eve, but with such cash as came out of their real estate interests in Duluth when the real estate market was on the boom and the festive lover of dirt said up all night and took out on the balustrades of the Chamber of Commerce stairs to get the first lot up on the market by the New Duluth Land company at the peep o' dawn. These bright spring days are past and the melancholy days of winter have come. Some are now selling real estate to buy overcoats, and others are hedging to buy coal, but the old reliable Franklin W. Merritt will be found today at the old stand, 202 Palladio building.

Tempests may come, and time, war, flood and fire work their worst upon the cliff dwellers pride, but it shaketh not the resolution nor the confidence of this marvelous real estate man who never forsakes a patron or fails to make money for every client. His knowledge of real estate values will always be found to be accurate and unfeigned, while his activity and get-there qualities are positively unrivalled. His well-known success in the real estate business, dealing as he has with the shrewdest manipulators of dirt in the Northwest, ought to entitle him to the full confidence of the visiting public. Besides his knowledge of all the ins and outs of the real estate business, he possesses few rivals as a dealer in iron and pine lands. Having lived in Duluth since childhood and having traveled all over the tributary country, he knows every iron and timber property almost as thoroughly as city property in Duluth. By all means, when desirous of investing in real estate, pine or iron lands give Franklin W. Merritt, at 202 Palladio building, a call.

DAM THE ST. LOUIS.

Affairs of the Water Company; a Second Dam to be Built.

G. W. Wattle, administrator for the Emery estate, is not expected in the city tomorrow, and no word has been received from him as to when he will be here, notwithstanding the incorrect statements of a morning paper. Mr. Wattle is expected here within the next few weeks, however, and it is probable that this month will see some settlement of the affairs of the Water Power company. "At the time of Mr. Emery's death," said E. C. Gridley this morning in reference to this matter, "he controlled about nine-tenths of the stock of the company which had undertaken the work of developing the St. Louis water power. This estate was unable to go on and complete the work he had begun. This was evident to every one. The only question was as to whether the work should be finished by the old company, to whose rights he had succeeded, or by a new one. This last I regard as the most probable course. I think the estate will surrender a large block of its stock, just how much depending on circumstances, and that this will be taken up and the work then pushed. If this course is followed the men most interested will be Mr. Wattle, Mr. Wallace, of Chester, and Mr. Butler. But it is possible that the contract with the old company will be allowed to lapse. In fact it is already in a state of suspension. The relations between the conflicting interests are most friendly. The old company has shown no disposition to take advantage of the rights of reversion under the contract, and whatever arrangement is decided upon, you may say positively will be an entirely amicable one. And more than this, no matter which plan is adopted, the lower dam will be built, the sides are agreed upon this point, but that the dam will be erected, and in my opinion work will be begun as soon as the weather will permit. The plan to be carried out is that contemplated by Mr. Emery, but it is not an electrical dam, as stated in a morning paper. Mr. Emery always intended that the lower dam should be replaced exclusively for flouring mills, and this will be done. If a dam is ever built for supplying electrical power and light to Duluth it will be one of the intermediate dams. The lower one now contemplated will never be used for such a purpose. I understand that Mr. Wattle is to be here soon, and after his arrival something definite will be decided upon, but even now I think you are safe in saying that a second dam will be built in the near future, and that the water power will be fully developed.

The Coldest of the Season.

The thermometer fell so low last night that it is a little doubtful if its place in reputable society can ever be regained. At the Pioneer Fuel company the registering instrument stuck to its work till it indicated 18 degrees below and then quit. The lowest point reached as shown by the instrument at the United States signal office was 16 below. The reports show cold weather all about us. At Marquette it was 6 below, Moorhead 14 below, Port Arthur 18 below. A slight moderation is to be expected. The cold was made to seem more intense by a wind which was blowing, though there was a velocity of only 18 miles an hour. The small thermometers about town registered some of them as low as 25 degrees below zero. It is not much of an event to the "old inhabitant" who talks of days when it went down to 50 degrees below. But the night was cool.

THE DISTRICT COURT

The News in the Hands of the Sheriff on a Judgment in Favor of B. B. Bishop.

The Disposition of the Cases on the Calendar for the Special Term - Today.

The Case of W. H. Burke Against the Hurl Refrigerator Company for Hearing on the Regular Calendar.

The News is experiencing another example of the smooth ways of Duluth journalism, and William Bates, whose late experience on the Tribune fits him for the position, took possession of its plant this morning. The attachment was made on a judgment for \$500 in favor of B. H. Bishop, of Minneapolis. The paper will appear as usual, but it is understood that the stockholders will not settle the judgment, but will allow the paper to go to sale and then bid it. Two watchmen are in charge of the plant.

The following disposition was made of the cases on the special calendar. American Building & Loan association vs. Nellie Everett, tried and submitted; Duluth & Winnipeg vs. Mats Kauppi et al, stay of 15 days; W. J. Woodard vs. E. Ingalls, continued.

In the matter of the assignment of Hackett & Tyler, the final account was approved. A. D. Cummings vs. M. J. Kearney, a suit to settle the title to lands in sections 10 and 14, 5-17, is now on trial.

The case on trial before the regular of the district court is W. C. White vs. The Hurl Refrigerator company. Mr. White is trustee for W. H. Burke, and the case reviews the history of the ill-fated "Times." Shortly before the suspension of that paper in December of 1890, H. B. Walmsley had agreed to take some stock in the paper, but was unable to do so, and the paper was compelled to suspend. The same day the paper suspended, it was sold to The Herald company by Mr. White who had been made trustee of Mr. Burke's assets. The Times was paid for by 15,000 of Herald stock and this was traded by Mr. Walmsley for \$10,000 of stock in the Advance Refrigerator company, afterwards reorganized and called the Hurl Refrigerator company. The new company refused to issue any stock to Mr. Burke and the matter has been pending in the courts ever since that time. It has come up in several different forms. An application was once made for an order compelling the company to issue the stock, but the motion was denied. In fact the company has been successful in every one of the preliminary skirmishes. The case being tried was probably be a final settlement of the matter. White, Reynolds & Schmidt appear for the defendants, and W. C. White for himself. Mr. Burke is here attending the trial.

A marriage license has been issued to John Johnson and Britta Lindquist.

Malcolm B. Currie has taken out first citizenship papers.

The exhibition at the Tethel Monday afternoon will be free of all.

The week's entertainment at that popular resort will be participated in by several different societies and each program will generate joy.

The Andrews Opera company was photographed at Nye's studio this morning, and colored photographs to the amount of \$200 worth, which will help to prove that Duluth is alike great in commerce and in art.

The Unity club will meet in the unitarian church Monday evening at 7:30 o'clock. Subject of discussion, "Shall the Government Control the Railroads?"

Discussion to be led by Mr. J. W. McLennan and Mr. W. B. Silvey.

The following variations in temperature were recorded at the Pioneer Press company's office, hotel St. Louis, 325 Superior street: 12 m., -4; 3 p. m., -1; 6 p. m., -1; 9 p. m., -4; 7 a. m., -0; 9 a. m., -0; 12 m., -2; 2 p. m., -4; minimum, -16; daily range, 20.

Rev. G. H. MacClelland, of the First baptist church, will preach tomorrow morning on the New Testament teaching of the second coming of Christ. Inasmuch as this doctrine is receiving much attention in periodicals and all the discussion of it at this time is not untimely.

The literary and musical entertainment at Endion baptist church on Jan. 22 will be the third entertainment of their lecture course and promises to be an interesting evening.

Mrs. Dinwiddie will conduct two choruses numbers by the Cecilia society. Mrs. Lowman, Miss Fannie Holden, Mrs. Price and others will take part.

The Pioneer Press yesterday had extended interviews on the Washburn anti-option bill from Col. C. H. Graves, L. A. Marvin, George E. Welles, A. D. Thompson, M. J. Forbes, Franklin Paine, C. Church, John McLeod, Chas. Canine and F. S. Daggett, of this city, all of whom hold that the proposed law is a thing of evil and that the option business should be optional with the people.

The Norwegian government wants a list of all the works by Norwegian authors which have been translated or reprinted in the United States, and has requested the consulate at St. Paul to attend to it. The consul yesterday asked Editor Lange, of the Duluth Scandia, to prepare such a list, supposing him to be more familiar with this matter than anybody else in this state.

The Unity club has made arrangements to have Mr. Edward Waldo Emerson, of Concord, Mass., deliver his lecture "The Relation of Animal Structure to Art," at the unitarian church Tuesday evening, January 26th. Mr. Emerson is rapidly making a reputation for himself as a lecturer that will place him among the ablest of American thinkers and speakers, in addition to which he is the son of his father.

A superior street merchant inserted an "ad" in the want columns of the Herald last night, he wanting a man to solicit orders. This morning he rushed into The Herald office saying, "for heaven's sake take that 'ad' out as I had over 20 applications before I closed my store last night, and this morning had to put out a card saying I had secured my man, so great was the rush. Little things like this show what The Herald does for its advertisers."

The Devil's Lake News has this to say of a former Duluth newspaper man: Col. Lounsbury recently purchased a farm near Barrett in this county, where he intends to establish his residence, having a special attachment for Ramsey county. He will soon return to North Dakota and commence the work of writing a history of the state. He will also publish a paper, but has not yet decided whether it will be in Fargo or Grand Forks. A sample of North Dakota's best newspaper talent is located within the colonel's cranium.

WORLD OF COMMERCE

After a Week of Excitement the Stock and Grain Markets Come Settling at the Close.

Grain Prices Firmer Today and the Outlook Hopeful for the Men Who Have the Breadstuffs.

The New York Bank Statement Shows a Gain of More Than a Million in the Reserves for the Week.

The local market ruled dull, but fairly steady. Paris was reported 20 lower on wheat and from 20 to 30 lower on flour. There were some sales of wheat on the Chicago board today by foreigners.

The best expert estimate of the crop of wheat in 1891 for the United States is said to be 560,000,000 bus. Exports of wheat and flour for past week, 5,321,000 bus. Available stocks of wheat in the United States and Canada at both costs is estimated at 78,000,000 bus. January No. 1 bus more than at the beginning of 1891 and 16,000,000 bus more than January, 1892.

Receipts of wheat here this week were light and the gain in stocks about 525,000 bu. The stocks of flour in store in the leading cities on Jan. 1, 1892 are 772,184 bbls, against 914,714 bbls a year ago. The market here ruled advancing from the noon hour and closed strong, at 1/2 advance over yesterday on cash and January, and 1/4 advance on May.

Cash No. 1, hard sold at 86 1/2 c, and closed firm at 86 1/2 c. For No. 1 hard on track 87 1/2 c was freely offered by the mills. Cash No. 1 northern sold after the first hour at 85 1/2 c and ruled dull, but advancing until the close at 85 1/2 c. Cars of No. 1 northern on track closed with good demand at 86 1/2 c, 10 above stored wheat.

Cash No. 2 northern sold late at 78 1/2 c, ruling dull, but closing firm at 78 1/2 c. No. 2 spring closed at 72 c. Rejected closed at 1/2 advance over yesterday at 61 c. January No. 1 hard closed very dull but firm at 1/2 advance over yesterday at 86 1/2 c. January No. 1 northern closed at 85 1/2 c. May No. 1 hard ruled dull, closing at 1/2 advance at 92 1/2 c. May No. 1 northern sold early at 91 1/2 c and closed at 91 1/2 c.

Millstuffs closed dull at \$11.50 for bran and shorts in sacks of 200 pounds free of extra charge.

Flax seed closed dull, nothing doing.

"HISTORIC LESSONS."

Dr. Cyrus Northrop Will Talk on This Theme in the High School Course.

In order to secure Dr. Northrop for a lecture in the High School course it has been necessary to set the date of this valuable lecture on "Historic Lessons" for Tuesday evening next. The friends of the association will gladly submit to the crowding of good things in order to have an opportunity to hear this lecture by so eminent a historian or scholar.

Dr. Northrop will give lessons largely from American history intended to promote patriotism.

DEATH OF WALTER BROWN.

A Prominent Young Duluthian Removed by the Grip Reaper.

Walter Brown, one of the most popular of the younger members of Clan Stewart, died yesterday afternoon. His death was caused by inflammation of the stomach, growing out of complications following the grip. The funeral will be held Sunday afternoon at Pilgrim church, under the auspices of Clan Stewart. Mr. Brown was prominent among the athletic men of the city. He was captain of the football club and a prominent member of the curling club. Mr. Brown came here from St. Paul about 18 months ago. He leaves a wife and one child.

As soon as the news of his death was heard at the curling club rink, the game that was being played was at once abandoned.

Supreme Court Proceedings.

State of Minnesota ex rel. Moses E. Clapp, attorney general, vs. Kettle Rock Railroad company, respondent.

The Option Extended.

The option held by the Mesaba syndicate upon the 2000 acres owned by the Mesaba, has been extended until June 14, and explorations will be continued till then. The syndicate has already expended \$20,000 in prospecting. In 60-15 they have 20 pits, a part of them in 38 feet of ore. The ore is a hard hematite, with some magnetite.

The prospectors at the E. J. Longyear iron camp on section 6, 55-22, about 20 miles northeast of La Prairie, have made a valuable find this week. They are in five feet of ore at a depth of 30 feet from the surface.

Two Cities by the Sea.

(New York Sun.)

The quarrel between the rival cities of Tacoma and Seattle, and that between the twin cities of St. Paul and Minneapolis, is far surpassed by that between the adjacent cities of Duluth and West Superior, at the head of Lake Superior. The papers of the two last-named cities, and the residents thereof, hurl the epithets of contempt and defiance at each other straight along, without taking time to get a full breath of fresh air.

Because Duluth is built on a hill, its people are derided by West Superior as "cliff dwellers." They are in five feet of ore at a depth of 30 feet from the surface.

West Superior, but West Superior builds the wharves that ride the waves. Duluth has many fine mansions, as West Superior, but the citizens of Duluth and West Superior are more solid than those of Duluth. Lots are rising and people getting rich in each place more rapidly than in the other. The boom of Duluth is unparalleled in its own eyes, but it is a mere laud in the eyes of West Superior. "Duluth is in the Gopher state," where West Superior is in the Badger state—fiddle-de-dee.

As for the charges brought against the people of Duluth by the papers of West Superior, and against the people of West Superior by the papers of Duluth, we cannot believe them. We praise both cities for their many merits and admire the hustlers of each of them for their many talents.

The Flag of the Free.

(Frank Leslie's Weekly.)

An effort is making to secure the display of the American flag over all the public school buildings of Missouri and other Western states. This has been done quite largely in the East, and it would seem to be eminently proper anywhere. We notice, however, that a St. Louis newspaper regards the proposition to introduce what it calls "flag-worship" into the public schools as a species of fetishism, and it suggests that there is nothing at all in the idea that children can be made patriotic Americans by becoming familiar with the flag of the country. It is a little difficult to understand how anybody can object to any proposition which looks to educating the growing generation in respect and reverence for the national flag, standing as it does for principles and ideas which the world is coming everywhere to recognize and adopt.

Notice.

I hereby announce myself as candidate for mayor of the city of Duluth and respectfully ask the voters to cast their ballots for me. If elected I will give the people an administration devoted to them.

Yours, JOS. A. MANNHEIM.

CANADIAN BOODLER

Premier Mercier's Corrupt Methods to be Exposed to the Light of Searching Inquiry.

He is Charged with Illegally Appropriating Enormous Sums to His Own Use.

Other Charges so Serious as to Stagger Even the Paradise of Boodlers.

QUEBEC, Jan. 11.—An even greater sensation than the recent dismissal from power by Lieutenant Governor Angers of ex-Premier Mercier and his colleagues has been created here by the announcement that this morning will witness the appointment by the governor and his new advisers of a royal commission of inquiry to examine into a frightful series of charges of malfeasance in office against their predecessors.

The direct charges of malfeasance in office to be referred to such commission are so terrible as to completely stagger the people of even this paradise of boodlers. They include the following: The issue in one year by the Mercier government of illegal letters of credit, only discovered since the new government came into power, amounting to \$156,000 in favor of political partisans and organizers; the giving out of corruption tracts without sanction of the executive to the value of \$700,000; the personal collection from the treasury by ex-Premier Mercier of large subsidies amounting to hundreds of thousands, voted to the Mercier government and direct payment by public contract of many thousands of dollars to ex-Premier Mercier and his friends, and general boodling by Mercier and his friends with all public contracts and patronage.

Attorney General Cosgrain will today follow up this action by instructing the crown council to take action against Mercier's friend, Ernest Pacaud, to recover the \$100,000 he admitted receiving from the "Baie des Chaleurs" railroad affair, but it now transpires that Pacaud has deposited the unexpended balance of the sum in the National Park bank, New York to avoid seizure.

PERIODICAL INDIAN SCARE.

Trouble Brewing Between Angry Cattlemen and the Dusky Reds. St. Paul, Jan. 11.—A telegram from Helena, Mont., yesterday said there is danger of bloodshed on the Tongue river agency. Bad feeling on the Tongue river reservation has existed for a long time.

The cattlemen have accused the Indians of killing their cattle and during the last few weeks, being unable to get the Indians any other way, they have been urging the sheriff to take a posse and enter the reservation for the purpose of making the arrests. Capt. Boulet, of troop A, first cavalry, who is stationed at the agency, heard of this and telegraphed the facts to Gen. Merritt. Thereupon Gen. Merritt telegraphed Governor Toole advising him to prevent the civil authorities from entering the reservation since such action could but result in trouble. The Indians are accustomed to the presence of soldiers and would quietly submit to an arrest, but they would regard the presence of others as an intrusion on their special domain, and had the police of the United States attempted the arrests, trouble of some sort would have followed. It was reported last night that shots were exchanged between a party of Indians and a party of hunters in Custer county, but no one was injured. The authorities are keeping a sharp eye on the Indians and will take effective measures to check any outbreak.

Gen. Merritt, in command of the department of Dakota, said last night that he thought the excitement would blow over in a day or two, and that the Indians who have been killing cattle there can be arrested without bloodshed.

Will Ask for \$1,000,000. ALBANY, Jan. 11.—The active sessions of the state legislature begin Tuesday night, when both branches meet. A petition will be presented from the W. C. T. U. asking for the passage of a bill prohibiting the employment of women and girls as barmaids; also to instruct the commission not to allow New York's exhibit at the World's fair to be opened on Sunday. Senator Cantor will introduce a bill asking for \$250,000 to this year in New York's exhibit with the view of next year appropriating a like sum. A petition will be presented from the New York chamber of commerce asking the legislature to make the appropriation at least \$1,000,000.

Minister Montt Interviewed. NEW YORK, Jan. 11.—The Press publishes the following Washington special dated last night: It is learned that Senator Montt, Chilean minister to Washington, has within a few hours held an interview with a representative official of the United States state department. The result of the interview indicates that the policy of the administration is as firm as ever, and that Chile will be called to meet every demand that the United States has made. Senator Montt realizes this and it is said that he has sent his cousin, the president of Chile, a long cipher dispatch urging some fulfillment of the vague promises he has been led to make.

A Democratic Victory. CHICAGO, Jan. 11.—At the bazar lately held in the Holy Family parish there was a contest for a prize between President Harrison's grandchild and ex-President Cleveland's daughter. The democratic child won, as the following vote shows. Baby McKee received 1146, Ruth Cleveland 1632. The award of the contest was a gold medal, which was sent to Mrs. Cleveland.

WORDS FROM WASHINGTON.

WASHINGTON, Jan. 11.—The vice-president laid before the senate at its opening today a communication from the interior department asking an immediate deficiency appropriation of \$150,000 for the support of the Sioux Indians in transmitting which the authorities of the department expressed an opinion that unless the appropriation was made before Feb. 1 next the result might possibly be a renewal of the Sioux "ghost dances," and the disturbance of last year. Referred to the committee on appropriations.

Mr. Perkins, from Kansas, elicited the attention of the senate by saying that he had a communication to present which had been addressed to his distinguished predecessor Mr. Plumb from the United States minister in Mexico, Mr. Thomas Ryan. He asked that it be read. Mr. Harris, who had previously objected to the reading and printing in the Record of memorials on the ground that if one senator was permitted to inaugurate this practice every other senator would be hauled over the coals by their constituents for not securing similar provisions to their petitions, withdrew his objections in this case and the communication was read.

Minister Ryan, under the date of City of Mexico, Dec. 9, 1891, wrote that it had been suggested that as a graceful act to the nation on the part of the United States to return to Mexico the trophies of war captured by her arms in the Mexican war. Whatever sentiment may prevail among citizens of the United States with regard to the justice or injustice of the invasion of Mexico, more than 40 years ago, Minister Ryan thought public sentiment would acquiesce in the return of these war trophies as a graceful act to a sister republic next to the United States, the greatest power on the American continent. Mr. Ryan stated in his letter to the President and Mr. Blaine, the senators favorably disposed, I hope will take action in the matter. He referred to the committee on foreign relations.

A number of bills were introduced. Mr. Perkins introduced a concurrent resolution reciting that it was the determined policy of the government to use both gold and silver as a circulating medium each under the ratio now established under any other ratio that might be agreed upon and that the President shall invite the nations of the world to a conference to decide upon a common ratio for the purpose of establishing bimetallic money circulation upon a basis of value between these two metals. This conference was to be held at such place as the majority of the nations accepting the invitation might agree upon. Also authorizing the President whenever in his judgment a sufficient number of nations had agreed upon a ratio to make official declaration of the government to adhere to the same. At 2:15 p. m. the senate adjourned until noon tomorrow.

In the House. Speaker Crisp, although improving, was unable to face the wintry winds that swept down the avenue this morning and Speaker Crisp, Mr. McKim called the house to order. The attendance was quite large, most of the members having returned from their holiday vacations. The absentees were mostly those who have been excused for reasons of illness or business. The congress is not yet so old that it has lost the interest of the people and the galleries were filled with the gaudy light.

The journal of the last session was read and approved. Mr. Dockery, of Missouri, asked leave to make a statement to correct errors in his speech in introducing the treasury, made some days ago, as it appears in the Record. Mr. Henderson, of Iowa, objected on the ground that the errors of these gentlemen were not errors of the Record and he charged. He offered, however, to consent that Mr. Dockery might use an hour correcting his errors if he (Henderson) were given an hour to answer him. Mr. Oates, of Alabama, objected to the use of an hour for any such purpose and the matter went over.

Mr. Breckinridge, of Kentucky, introduced a resolution for a repeal of the regulatory duties placed on the McKinley bill and authorizing the President to open our ports free to those countries which admit our products free of duty. Mr. Burrows objected to its presentation and it was withdrawn. The rule of the introduction of bills was extended to cover today and the number of measures were introduced. At 2:40 p. m., the house adjourned until tomorrow.

A Thorny Path to Travel. WASHINGTON, Jan. 11.—Judge Wood, of former and recently nonresident, for one of the new circuit judgeships, will from all appearances have a thorny path to travel before he receives his nomination. At the first executive session of the senate this week an attempt will be made to have the confirmation of Judge Wood considered in open session. This step will be taken by Senators Voorhees and Turpie who are opposed to this nomination. Those making the fight against the confirmation, headed by the senators from Indiana, it is said, want the whole country to hear the merits and demerits of the appointment and with that end in view they seek as large an audience as possible. The democrats expect assistance from the republican side of the chamber in this matter for it is claimed, the appointment being judicial and more political, it will receive the most careful consideration at the hands of the senate and the fitness of the nominee to serve on the federal bench will be passed upon without partisan prejudice.

Patent Legislation. WASHINGTON, Jan. 11.—The house committee on patents met today and discussed the general subject of patent legislation. But the bills introduced for reference to the committee had not reported in printed form an adjournment was taken until Monday next, when the committee will begin regular work.

Speaker Crisp's Condition. WASHINGTON, Jan. 11.—Speaker Crisp continued to improve. The morning he sat up, read the papers and dictated a number of letters.

INAUGURATION DAY

Maj. McKinley is Formally Installed as Chief Executive of the Buckeye State.

The Inaugural Address Followed by a Parade of Most Imposing Magnitude.

The Governor Urges that the State be Redistricted Without Taint of Partisanship.

COLUMBUS, Ohio, Jan. 11.—Governor McKinley took the oath of office at 11:30 this morning and Lieutenant Governor A. L. Harris, Attorney General Watson, State Treasurer W. T. Cope, State Auditor E. W. Poo, Commissioner of Public Works C. E. Grace and Food Commissioner W. J. McKean were subsequently sworn in their respective offices in the capitol. Not in many years has inauguration day brought more favorable weather. The inaugural ceremonies proper were held in the rounds of the capitol. The general assembly met at 10:30 and almost immediately proceeded to the rounds accompanied by the supreme judges and state officers-elect, except Major McKinley and the state officers. At 11 o'clock Governor Campbell and Governor-elect McKinley were escorted by a military band to the house and senate appointed to have charge of the inaugural ceremonies to the capitol. Rev. Dr. H. W. Bennett, of the Wesley chapel methodist episcopal church, offered prayer, after which Chief Justice Marshall J. Williams administered the oath of office to Governor McKinley. Governor McKinley then delivered his inaugural address, which treats briefly of the progress of Ohio in population and wealth between 1880 and 1890, of the state finances, taxation, agricultural interests, public institutions, etc. In speaking of Ohio's representation at the World's fair, the governor said that not only should the state see to it that ample provision be made to have a creditable exhibit, but the people and their representatives should also urge upon congress to take such action as will make this exposition worthy of the great event it celebrates, and worthy also of the dignity and honor of the nation. In regard to the redistricting of Ohio under the new census for representatives in congress, the governor urged that the districts be apportioned with perfect fairness and with no taint of partisanship.

A gun fired at the conclusion of the address was the signal for the parade of military and civil organizations, which were forming meanwhile to move. The parade was probably the most imposing ever seen here on such an occasion. After the parade had passed the senators and Lieutenant Governor Harris returned to the senate, where the lieutenant governor took the oath of office and the other state officers went to their respective offices where they were sworn in.

The Haymarket Appeal. WASHINGTON, Jan. 11.—The appeal from the decision of the federal court in Chicago, denying the application for the release of Fielden and Schwab, the Chicago anarchists now confined in Joliet prison for participation in the Haymarket tragedy, was set for hearing before a supreme court today, and when it was called Attorney General Hunt of Illinois, appearing for that state, asked its postponement until next week. Gen. F. Butler and Moses Salomon, of Chicago, were present to represent the anarchists. Gen. Butler stated that he had no objection to a postponement and the court granted Mr. Hunt's request. Geo. S. Higgins, who has been accused of being implicated in the Haymarket affair, was an interested spectator in the court.

Snow-Bound Passengers. LONDON, Jan. 11.—Reports received this morning from Scotland and the northern counties of England state that the fall of snow continues incessant and heavy while the weather remains intensely cold. The passenger train which on Friday last became embroiled in a snow drift, a considerable distance from a railroad station in Caithness, the most northerly county of Scotland, remains immovable. The snow-bound passengers and train crews remain in a miserable plight, and it is feared that the former are suffering miserably from hunger, thirst and cold owing to the failure of the first relief expedition to reach them with supplies.

A Worthy Scheme. PARIS, Jan. 11.—In an interview today Baron Hirsch informed a representative of the United Press that the government of the Argentine republic supports his scheme for a colonization of Hebrews in that country. Baron Hirsch declared that the movement would be pressed forward just as soon as Major Goldsmith, an eminent ex-staff officer of the British army, who is supervising the enterprise, reaches the Argentine republic. The baron added that if the colonies were successfully established it was intended to send out 20,000 Jews during the present year. More land, he concluded, was wanted for colonization purposes.

Admiral Rodgers' Funeral. WASHINGTON, Jan. 11.—Funeral services over the remains of Rear Admiral Rodgers were held at St. John's episcopal church this morning. At the conclusion of the services the remains were borne to the Pennsylvania station and placed on a special car for conveyance to Annapolis, Md., where the interment will be made.

Yellow Jack at Sea. NEW YORK, Jan. 11.—Capt. Lawson, of the British steamer Moorish Prince, which arrived at quarantine early Sunday morning, reports that six members of the steamer's crew had been sick with yellow fever four of whom died. The steamer is detained at quarantine for disinfection.

Fatal Boiler Explosion. NORRISTOWN, Pa., Jan. 11.—The boiler in a pork packing factory at Bridgeport, near this place, exploded this morning, and John Shaw, of Conshohocken, butcher, and John Myers were killed. Several others were seriously injured.

CORN AND STOCKS.

Effect of the Big Crop on Roads in the Corn Belt.

NEW YORK, Jan. 11.—Henry Clews in the Financial Review says: It is especially important to keep in view the fact that a new and important group of stocks will from this time come into prominence through the forwarding of the corn crop. The department of agriculture estimates the out-turn of that crop at 2,060,000,000 bushels, which is the largest, but one ever realized. It is the last crop to come into the market, and is now beginning to be moved. The securities of the roads serving the wheat belt; but there is still a liberal margin for further advance to come from the future reports of actual increase of traffic; and this lengthening of the grain list of roads showing large increases can hardly fail to have the effect of advancing prices later. It will be the infusion of new steam to replace that which has evaporated, and place that which has evaporated, and will therefore act as a sustaining force in the general market. Coincident with our unprecedented crops (the wheat crop being now officially reported at 612,000,000), there is a general deficiency in Europe, and the Russian export is now wholly cut off, while Russia herself may have to import. It is therefore quite possible that our year's export of wheat and flour may reach 200,000,000 bushels, and our corn shipments may show a similar ratio of increase. This means a very important increase in the grain tonnage of the trunk roads connecting with the West; and the full occupation of the rolling stock of those roads is calculated to maintain rates of freight.

SENTENCED TO DEATH.

The Mills of God Grind Slowly Yet They Grind Exceedingly Fine.

DEVER, Jan. 11.—This morning Dr. Graves appeared in court pursuant to the order of Judge Rising and was denied an arrest of judgment and sentenced to be hanged sometime during the two weeks beginning Jan. 31, 1892. The usual procedure after sentence was pronounced is to remove the prisoner to the penitentiary at the earliest convenient moment. Dr. Graves will probably wish to see his wife before being taken away. Thanks to the excellent care that is being given, her condition continues to show steady improvement. The doctor passed yesterday in the same calm manner as the previous days of the week. His indifference to his fate is remarked by all the guards at the jail. The other principals in the case took almost comical rest preparatory to what is likely to be the final battle in the district court. Mr. Conrad, the prosecuting witness, is still in the city, but expects to leave this evening for Providence.

Counselman Wins.

WASHINGTON, Jan. 11.—The supreme court today rendered a decision in the case of Charles Counselman vs. Frank Hitchcock, United States marshal for the northern district of Illinois. It is in effect that the interstate commission had no right to compel a witness to testify against himself, and reverses the decision of the United States circuit court of the district of Illinois, holding that Counselman, in refusing to answer questions put to him by the interstate commission, was guilty of contempt.

The Street Car Strike. INDIANAPOLIS, Jan. 11.—The strike of street car employees for the right to ride free at any and all times upon presentation of the company's badges which was inaugurated yesterday still continues. A committee of the Brotherhood of Street Railway Employees is at Chicago presenting the grievances to the directors of the company which is controlled by a Chicago syndicate. So far the strikers have interrupted all attempts to run cars without resorting to violence.

Fighting for Ikeligloo. ALEX. Jan. 11.—The rebellion in Yemen had burst forth again and the rebels are marching upon Sanaa, the capital of Yemen from which place the S. Hing, who has been accused of being implicated in the Haymarket affair, was an interested spectator in the court.

Two Children Cremated. SEDALIA, Mo., Jan. 11.—The 7-year-old boy and a 5-year-old girl of David Buckley, living near Smithton, were burned to death during the absence of their parents yesterday. The house was also destroyed.

Peace Reigns. AKRON, Kas., Jan. 11.—Dispatches from the governor have been received ordering the dismissal of the troops heretofore held in readiness for this section. No further trouble is probable.

HISTORIC LESSONS.

Dr. Cyrus Northrop, of the University, Will Lecture Tomorrow Night. President Northrop, of the Minnesota State University, will lecture tomorrow night in the Temple Opera, in the High school lecture course on "Historic Lessons," in which he will draw from the history of our country many examples worthy the emulation of the young men of today. This promises to be one of the most interesting of the many high grade lectures in this successful course and Dr. Northrop is an eloquent speaker, while a vein of bituminous humor runs through his public efforts of this kind. You will miss a good lecture and one of Minnesota's most loyal citizens if you do not hear and see Cyrus at the Temple tomorrow night.

Vessel Inspectors' Report. The annual report of M. F. Chalk and John Monaghan, government inspectors of boilers for this district, contains a number of interesting figures. The report shows that there are in the district 35 passenger steamers, 15 ferry, 16 freight, 42 towing, 22 pleasure and 33 miscellaneous, making a total of 133. The number of passengers carried, 240,612, shows a very large increase over that of the previous year.

A Burst Pipe. A water pipe burst in Klein, the pawnbroker's, at 9 o'clock this morning completely filling the store with water. He carried a large stock of clothing and furnishing goods which suffered in the deluge.

The Weather.

U. S. WEATHER BUREAU, DULUTH, MINN., Jan.
11.—Old weather still prevails over the entire
country with clear and heavy snow in the
South. The coldest days in Wisconsin, 20
below zero, the warmest at Fort Smith, Ark., 30
above, but the largest part of the country is be-
low zero.

The highest temperature here yesterday was
zero, lowest last night 18° below zero.

THE PRETENSE PRIZE.

The Herald being a Duluth newspaper
has from time to time felt in duty
bound to say a word or two against the
pretensions of those adventurers who
through threats and persuasion have
long endeavored to rob our citizens of
their homes.

The claims put forth by this con-
scienceless crowd have been several
times carefully adjudicated, and each
case is weaker than the one before.
Four times Judge Nelson of the United
States circuit court has decided against
the Pretence pretenders, and once the
United States supreme court in an opinion
by Justice Matthews decided against
them a case involving the title to
the lot on which The Herald office is
located. It seems, therefore, that the
matter has gone far enough, that the
argument is all in, and in dealing
with these land grabbers patience has
ceased to be a virtue.

In the face of all these facts it is quite
surprising that any paper published in
Duluth should join hands with and fur-
ther the interests of this disreputable
gang. A paper that will thus sell out
home for a bowl of potage is not
worthy the support of honest citizens,
and any Duluthian guilty of aiding and
abetting these marplots from abroad
should remove himself to a more congen-
ial climate.

The Herald holds that the claimants
have had a full, free and fair trial—
indeed, several of them—that every right
they claimed has been carefully and ad-
versely passed upon by the ablest and
most impartial courts, and that they have
no more title to the Third division of
Duluth than any gang of robbers has to
mansions in the skies. It is time to call
things by their right names, that thieves
may be known as thieves and that men
and newspapers be classed with the com-
pany they keep. If the Tribune or any
other paper sees fit to fight Duluth for
consideration, it should get its support
where it gets its sop.

ADVERTISING THAT PAYS.

In the last number of Printer's Ink Mr.
M. M. Gillman, advertising manager for
John Wanamaker, sets forth the success-
ful Philadelphia's opinion on the merits
of the right kind of advertising. In it
is related how on Nov. 1, 1887, Mr. Wana-
maker with a limited capital, for such an
undertaking, started his store. At the
same time there appeared full page and
half page advertisements in the news-
papers telling just what bargains were
offered for each day. Many of his com-
petitors said "he'll go broke," but today
his floor space covers fifteen acres and is
still growing, while each day you will
find his advertisements in the
papers. Other stores have since
followed his example in Philadelphia,
and the result is they are all
prospering, having helped themselves,
helped the city, and helped the news-
papers.

Mr. Gillman says the three vital prin-
ciples for a successful business are
"liberal stocks, liberal dealing and liberal
advertising," and further on he adds,
"for a general business I believe there is
but one perfectly satisfactory adver-
tising medium—the daily newspaper. A
daily paper in any community sorts out
the people you want to reach as if by
magic, and puts them before your eyes in
an advertisement before the readers of a
daily paper you talk to the cream of your
population, you go straight home to the
people who are buyers." These are the
words of the most successful merchant
since A. T. Stewart's time, and persistent
advertising made his fortune in a few
years.

The Duluth News is just now taking
its turn with the sheriff, but needn't feel
proud about it as we have all enjoyed
that social distinction in times past. The
Herald is the only Duluth daily which
under its present management hasn't

entertained any such attachment, and it
has no purpose of making future affilia-
tions of that sort. The present expec-
tations of the News is not understood to be
a necessary event except for the purpose
of getting it into fewer hands and placing
it on a better basis at a nominal expense.

The purchase of the Tribune and con-
solidation of the two morning papers is
among the possibilities, as the leading
stockholders of the News have lot of
silver certificates and could perform a
coup d'etat as easy as rolling off a log.

The Herald isn't giving any advice in
the matter, but hopes to see all its con-
temporaries succeed and has no doubt
they will do so. The News under Bishop
Thomas Ewing Bowen's management
for the past year and a half ending with
his retirement on January 1, had paid
its way despite the dullness of the last
season, and we understand that barring
certain legacies it would still be on its
feet. We trust the minions of the law
will lay their hands lightly upon our
morning contemporary and that, relieved
of its present embarrassment, it will soon
appear bigger than life and more
resplendent than ever.

W. T. Stead, editor of the Review of
Reviews, has a sketch of the emperor of
Russia in the January number of that
magazine which is so fully in accord
with the comments of The Herald on
Russian matters that we give elsewhere
an extract from the New York Sun
which covers better than we could do
the salient features of the article. The
English prejudice against Russia has
done much to color European news on
the affairs of that empire, and it would
seem that Americans as a rule have no
very just conception of the character of
the czar. The serfs were liberated but a
generation ago by a voluntary act of the
father of the present czar, and it may
well be doubted if they are fitted or
desire anything but a despotic govern-
ment. The conflict is between the czar
and the nobles whose power has been
materially weakened through the eman-
cipation of the serfs. The empire will
some day become a republic, but we
have yet to learn that the czar is any-
thing but the best friend of his humblest
subjects.

The present outlook is that neither the
democratic nor republican party will
nominate a congressional candidate
from Duluth this year, although the
alliance may possibly put Charles Can-
ning on the track again. Judge Searles
of St. Cloud, is the most probable candi-
date on the republican ticket, while H.
S. Stivers, of Brainerd, seems destined
to tap the democratic refreshments.

With these three estimable gentlemen in
the race it would be nip and tuck, and
the one who had the most nip would
tucker the others out. Stivers is likely
to have the largest following, as he is
already the father of eleven children
and has just passed over on to the trans-
alpine side of forty.

During the year 1891 the total number
of failures in the United States was 12,
273, an excess of 1366 over those of 1890,
and a larger number than in any pre-
ceding year of our history. The aver-
age liability of \$15,471 was slightly less
and the total of \$18,000,000 slightly
more than that of 1890. The proportion
of assets to liabilities was 53 per cent.
The central states show a remarkable
decrease of failures from 1890 while the
aggregate in the South is increased from
\$7,000,000 to \$15,000,000. The star of
empire in this respect seems to be shying
to the South.

The Herald acknowledges the receipt
of copy of the New Year's mid-winter
edition of the San Jose Cal. Mercury,
consisting of 44 pages. In it is set forth
the wonderful fertility and resources of
the San Jose valley, its delightful cli-
mate and many natural advantages. The
Mercury may well be proud of this edi-
tion consisting of many novel pictorial
features, elaborate and comprehensive
descriptive reviews, and the well-merited
patronage bestowed by its advertisers
who so ably assisted in editing many of
the columns of this issue.

Several republican leaders got together
Saturday night and tried to arrange
for harmonious action in the mayoralty
campaign. Perkey Johnson, the erst-
while county treasurer and embonpoint
vocalist, is now numbered among the
possibilities as a candidate. Heretofore
he has permitted no votes to percolate
through his fingers.

As we remarked before, the evening
paper is the paper for Duluth. It fills
the home field and is the best adver-
tising medium for the merchant, for it has
the largest circulation and goes into the
homes where the whole family peruse its
pictorial paragraphs. Don't make any
mistake about that.

Peradventure there is method in the
Tribune's madness, for heretofore it has
been opposed to our astute and Inger-
sollian friend, Charles Alexander Long,
whom it is now praising and pushing for
the mayoralty. And then, too, though
we regret to think so, perhaps the cloud
that obscures its view has a silver lining.

A movement has been begun by the
lumbermen of Atlanta, Ga., to prevent
Canadian competition, and a meeting of
lumbermen throughout the country has
been called for that city for February 9.
The folks who are building homes, how-
ever, are not kicking at a little competi-
tion of this sort.

The Herald knows of but one person
who doesn't like it a little bit, and that is
our friend Frederick Prentice, who is
raising the banner on the head of van-
quished with a curly comb and malice
forethought. Duluthians, however, will
love it for the enemy it has made.

People are wont to think of St. Louis
as a slow town and yet building permits

for 1891 show a total improvement of
\$13,262,170. Milwaukee spent \$100,000-
000 in the same way. Thus does the
West adorn herself with new clothes.

Nothing succeeds like success. The
Herald is successful. It reaches every-
body. It is in the hands of its friends.
Now is the time to subscribe.

When you see "two souls with but a single
thought, two hearts that beat as one," you can
set it down without further diagnosis of the
case that they are stuck together with court
plaster.

A writer in one of the magazines wants to
know why we live under the mislead, like-
wise oblivious of the fact that out in the free and
frisky west we do most of our kissing under the
nose.

One chapter contemporary, the Tribune, re-
marked yesterday that a daily newspaper that
possesses a dual character—it must have a soul
and a bank account.

It is in no spirit of unkindness that we speak
of one of our contemporaries as the mourning
News.

It can scarcely be said it is the place that kills
when a man dies at his post.

The Czar Depleted by an English
Hand.

[New York Sun.]

It is an interesting sketch of Alexander
III which is contributed by Mr. W.
T. Stead to the January number of the
Review of Reviews. The Russian auto-
crat is not popular in Great Britain, and
therefore we were not prepared to see
full justice done to his character by an
English journalist. This tribute of re-
spect is the more weighty, because Mr.
Stead is the only Englishman who has
had the opportunity of interviewing the
czar in the interest of a newspaper. It
is this first-hand impressions, and not
borrowed or speculative opinions, which
he sets before us.

It is the judgment of this English ob-
server that there has never been a more
disinterested, conscientious, sober-
minded ruler than is the present auto-
crat of all the Russias. If he is not a
political statesman, he is because, like the
English rulers of India, he does not
believe his subjects ripe for profound
political changes. If he is not a states-
man, he is because he is a vigilant, pain-
staking, upright, anxious adminis-
trator. If he is not a great man, he is
at least a sound and sensible one.

Mr. Stead would describe him as a
strong man who takes short
views. He aims at a large and
the work which his hands find to do, be-
lieving that sufficient to the day is the
evil thereof. From day to day he
strives with all his might and main to
discern his duty; and then he
does it to the best of his ability. He
takes no pleasure in his position
emphatically; and he means to use his un-
limited powers for the well being of his
people instead of for the payment of money
to the holders of property, who are the
disinterested and conscientious, sober-
minded ruler than is the present auto-
crat of all the Russias. If he is not a
political statesman, he is because, like the
English rulers of India, he does not
believe his subjects ripe for profound
political changes. If he is not a states-
man, he is because he is a vigilant, pain-
staking, upright, anxious adminis-
trator. If he is not a great man, he is
at least a sound and sensible one.

Postmaster-General Wanamaker re-
ceived rather more elaborately than any
other of the cabinet officers a committee
of the Duluth city fathers. Just before
Chief Justice Fuller was announced, a
pious-john feeling struck the P. M. G.,
and he deliberately reached around and
kissed the prettiest girl in the prior.

That Prentice Claim.

In view of the renewed efforts now
being made to dupe property holders in
the Third division in Duluth into the
payment of money in compromise of the
so-called Prentice claim, the undersigned,
who were appointed by the property
holders a committee to take charge of the
legal proceedings to quiet their titles, deem it
their duty to state that when one
judgment to pay money to Mr. Prentice
is worse than to throw it away. The suit
in equity against Prentice, brought on
Tuesday last, is a property holder's
stands for trial at the term of the United
States circuit court convening in St. Paul
on Tuesday next.

There is no
reason to doubt that the case will be
satisfactorily disposed of during the ap-
proaching term.

Being impracticable for us to com-
municate directly and personally with
the large number of interested persons,
we have thought it best to address them
in the form of warning through the col-
umns of your paper. There is every
reason to anticipate a speedy disposi-
tion of the pending case and actual
clearing up of the Third division titles.
To property owner should permit

Preachers and Politics.

To the Editor of The Herald:

Mr. Barker struck the key note last
evening at Temple Opera, when he pre-
sented his sermon with a little advice on
the coming city election, and I believe it
to be the duty of the pastor of every
church in the city to do likewise. No
gathering at any of the churches for
whatever purpose from now until elec-
tion should be allowed.

It may be thought by some that the
church has nothing to do with politics.
One thing is very certain, the leaders of
the different factions act as though re-
ligion had nothing to do with politics,
and with such opinions it is any mystery
that they violate every precept, every
principle of the religion of Jesus Christ!

It may be asked what is politics? Is it
not the science and the exercise of civil
rights as citizens? And what is religion?
Is it not an obligation to the service of
God, extending to all the relations of
life? Is it not a man as a man, a citizen
to God and his fellow men for a citizen
in politics as in any other business of
life?

It is the duty of every man to follow by
the crime and necessary may follow by the
election to office of men who will permit
what is called a wide-open policy to pre-
vail. It is the duty of every man to follow
under no review in the judgment to
come? Is all the fraud and falsehood
holders of property to be brought out
in our city election? Must a minister of
the gospel see his people in their politi-
cal career break through every moral
restraint and keep silence. VOTER.

The Race Not Always to the Swift.
[Atlanta Constitution.]

While Billy Smith's hounds were run-
ning a mink this morning a large hawk

Score One for Wanamaker.

Postmaster-General Wanamaker re-
ceived rather more elaborately than any
other of the cabinet officers a committee
of the Duluth city fathers. Just before
Chief Justice Fuller was announced, a

and he deliberately reached around and
kissed the prettiest girl in the prior.

That Prentice Claim.

In view of the renewed efforts now
being made to dupe property holders in
the Third division in Duluth into the
payment of money in compromise of the
so-called Prentice claim, the undersigned,
who were appointed by the property
holders a committee to take charge of the
legal proceedings to quiet their titles, deem it
their duty to state that when one
judgment to pay money to Mr. Prentice
is worse than to throw it away. The suit
in equity against Prentice, brought on
Tuesday last, is a property holder's
stands for trial at the term of the United
States circuit court convening in St. Paul
on Tuesday next.

There is no
reason to doubt that the case will be
satisfactorily disposed of during the ap-
proaching term.

Being impracticable for us to com-
municate directly and personally with
the large number of interested persons,
we have thought it best to address them
in the form of warning through the col-
umns of your paper. There is every
reason to anticipate a speedy disposi-
tion of the pending case and actual
clearing up of the Third division titles.
To property owner should permit

quit-claim deed.

A VICTORY FOR DULUTH

A. W. Wright Elected President of the North Star Construction Company and R. S. Munger a Director.

These Compose a Majority of the Executive Committee, Which is Now Favorable to Duluth.

How the Future Policy of the Company and Road Will be Affected by the Changes.

General Manager Fisher, of the Duluth & Winnipeg, is expected home from the East tomorrow where he has been to attend the annual meeting of the stockholders of the road and of the North Star Construction company, which is carrying on the work of construction. He is in St. Paul today.

Few details can be obtained as to the action taken at the meeting, as no one about the company's office is willing to talk of the matter prior to Mr. Fisher's return. But it can be said safely that some changes were made which may result to the great advantage of Duluth. Mr. Baker, of Baltimore, who has been president of the construction company, resigns and his place is taken by A. W. Wright, of Alma, Minn., the president of the road. Mr. Wright is largely interested in Duluth and very favorable to the interests of this city. He is a stockholder in the Wells-Stone and Chapin-Wells companies and has other interests here besides. Just what effect his election will have upon the policy and future action of the road cannot be told in the absence of everyone at liberty to talk on the subject but the changes will result in benefit to Duluth. The weight of Mr. Wright's influence, as it always has been, will be exerted for this city and now the conditions are such that his power will be most effective. In the matter of the terminals the change may have a most important bearing.

R. S. Munger this morning received notification from the company that he had been elected a director of the construction company. Mr. Munger has been a director of the road but heretofore has had no official position with the other and more important company. Besides being elected a director he has also been made a member of the executive committee. This shows more clearly even than the election of Mr. Wright that the future policy of the company is to be favorable to Duluth. The executive committee consists of three members. One is Mr. Wright and one Mr. Munger which gives a majority in favor of Duluth on any important question which may come up for consideration. Who the other member of the committee is cannot be learned, nor is the matter of great importance, as no matter if he were inimical to the interests of this city he would be unable to accomplish anything to our disadvantage.

The news was much discussed about the streets and hotels today and on every side it was looked upon as a most fortunate thing for Duluth. It may result in no radical change in the policy of the road but at any rate it will not be to our disadvantage.

SOUTHERN IRON MEN.

The Chicago Company to be Organized by Capitalists From Ohio and West Virginia.

R. S. Carr and A. E. Humphreys, of Charleston, W. Va., G. E. Milligan and R. J. Camden and R. T. Herndon, of Parkersburg, W. Va.; R. Ballard and W. B. Crane, of Cincinnati; C. W. Howard, of Tennessee, and A. J. Decker, of Indianapolis, comprise a party of Southern men interested in Mesaba iron mines who are visiting here. They expect to go on an exploring trip on the Mesaba range and will spend several days here. The visitors, accompanied by a small party of Duluthians, will leave today for the range, and will spend a day or two exploring. On their return a new iron mining company will be organized, in which all of the men whose names have been mentioned will take stock. In addition, there will be stockholders in this city including John McKinley and Judge Hale. The holdings of the company are in the country lying between the Biwabic and the Cincinnati mines. The new company will be known as the Chicago company and will be capitalized at \$5,000,000, of which amount \$1,000,000 is to be devoted to the development of the properties of the company.

The Andrews Opera Company. Tonight the Andrews Opera company will appear in the ever popular and charming comedy opera "La Mascotte." Owing to a slight error on the part of Manager Gordon, of the West Superior, the Andrews Opera company were compelled to give way tonight for another attraction previously contracted to occupy the house. Manager Frisbee taking advantage of this induced this excellent company to remain in the city and give another performance, hence the bill for tonight. This company is especially strong in this opera. Miss Marie Koe, a well-known and popular prima donna, formerly with the "Boston Ideals" and now a member of the Andrews company, will make her first appearance in this city in the role of "Bettina, the Mascotte." Mr. Ed. Andrews will take the role of "Lorenzo" and Mr. Clayton "Rocco." Mr. Jay C. Taylor will appear in the role of "Pippo," thus insuring the finest production ever seen in this city.

A Correction. "In Saturday's Herald," said Mr. Burke, this morning, "in a court item referring to the case of W. C. White, trustees, vs. The Hurd Refrigerator company, the following occurred: 'An application was once made for an order compelling the company to transfer the stock, but the motion was denied.' In fact the company has been successful in every one of the preliminary skirmishes. These statements are not correct. The case has never been in the courts until the present time; there never was an application made for a compelling order in the matter; there never has been a 'preliminary skirmish' of any sort whatever, hence the company has been neither successful or unsuccessful in such a skirmish."

The District Court. The district court adjourned this morning sine die, the case of W. C. White vs. The Hurd Refrigerator company having been adjourned by consent. The term just closed opened in November and has been a very long one. The next term of court convenes on Feb. 2.

Cheap Homes. The electric line on the hill will be in operation early next summer. You can buy a lot on this line within ten minutes ride of the Union depot for \$150 to \$200, on easy terms, from the Highland Improvement company. Office, 105 Chamber of Commerce building.

CITY BRIEFS.

Smoke Endion cigar. W. A. Foote & Co. Tomorrow is the first day for registration.

Grace M. E. church at the west end is experiencing an interesting series of revival services.

An important meeting of the A. O. H. will be held tomorrow evening in St. Thomas' school.

Dr. Cyrus Northrop talks on "The Merchant of Venice" before the Round Table tonight.

The altar boys of the pro-cathedral will have their annual supper this evening at the episcopal residence.

Five teams were required to draw a huge block of stone from the depot to the government building Saturday.

Mr. Ed. Andrews, of the opera company, is confined to his room by illness today and Mr. Parker will take his place as "Lorenzo" this evening.

The wedding of Miss Rosa Roos and Mr. Louis Aronheim took place at the residence of the bride's brother, Louis Roos, 300 East First street yesterday afternoon.

The funeral of Walter Brown took place yesterday afternoon from Pilgrim church. Services were conducted by Rev. Mr. Noyes. Clam Stewart attended the services in a body.

Word has been received here of the death of John Drummond, formerly manager of the Spaulding. At the time of his death Mr. Drummond was chief clerk at the Richelieu at Chicago.

Elsa Herring, of Superior, has brought suit against the Eastern Minnesota for \$10,500 alleged damages, caused to the plaintiff on September 8, 1891, through the carelessness of the defendant company.

The Ladies' Literature class meets tomorrow afternoon with Mrs. Geo. Spenser with Mrs. W. C. White in the chair. The subjects for discussion are Tennessee's "In Memoriam" and "Idyls of the King."

Simon Clark was very much annoyed by the uncalculated assault of his name in this morning's News. Mr. Clark is not, as alleged, a wide open policy man, as that term is understood, but believes in a business administration such as ought to please everybody.

Tomorrow is the first day of registration for the coming municipal election. If you didn't vote at the recent special election you must register or you cannot vote for mayor. There will be two more registration days, but the safest way is to register now.

The new logging engine which was recently purchased by Mitchell & McClure at a cost of \$6000, was almost destroyed yesterday. The engineer failed to close the valve properly when leaving it at noon and the engine after making a run wild, jumped the track.

Mrs. Giles Gilbert will entertain tomorrow evening at an evening company which will be the most elaborate function of the week. Invitations have been issued to over a hundred. There will be tea early in the evening, to be followed later by progressive euchre.

The following variations in temperature were recorded at the Pioneer Fuel company's office, hotel St. Louis, 335 Superior street: 12 m., -10; 3 p. m., -4; 6 p. m., -3; 9 p. m., -2; 7 a. m., -12; 9 a. m., -12; 12 m., -12. Maximum, -0; minimum, -18; daily range, 18.

Barney Keeghan, the well-known government, outside surveyor, who had a misfortune to fall on Superior street near the Ideal restaurant Friday night and break his leg, is getting along as well as could be expected. Dr. Alden is attending to the injured man and hopes to have him up again in the course of a month or so.

The Northwestern Lumbermen's association, about 300 strong, will be in Duluth on the night of Jan. 28. Supper will be served at the Spaulding and the program says that in the evening they will be entertained by a "lumbermen's minstrel show, instituted by the association, members of the talent among the traveling salesmen for the various honorary members of the association. They go from here to Superior the following day.

A meeting of the parishioners of the pro-cathedral was held yesterday afternoon in Catholic Association hall at which the financial interests of the parish were discussed. The annual financial statement was read and showed the parish to be in good standing. Father Corbett congratulated them on the good work both materially and spiritually which has been accomplished within the last year.

Northwestern Lumberman. Recently a party of government agents returned to Duluth, Minn., after a long absence on an expedition to the Rainy river country, and reported that there was no timber stealing going on in that country to amount to anything. Now comes a report from Minneapolis that a government party has returned from the northern boundary after a successful expedition, having found indisputable evidence of successful trespassing on government timber lands. The question is which party is which, and what story is to be believed.

PERSONAL.

The Local Market Opens Weaker but Shows a Good Volume of Transactions.

The Movement of Corn Has Now Begun and the Roads in Corn Belt Show a Strengthening of Stocks.

The Decrease in the Visible Supply of Wheat is Offset by the Large Amount of Breadstuffs in Stock Abroad.

Prices were off 1/2c this morning as compared with Saturday's close on May No. 1 northern and cash wheat. First sales May No. 1 hard was 3/4c off. The early reports of the visible were to the effect that there would be considerable of a decrease in wheat. Early cables reported foreign markets dull, listless and lower.

Over 800,000 bush of corn has been taken in New York Saturday for export and about one-third as much wheat. New York cleared 25,000 bush of wheat and four today. A heavy storm was reported to be raging all over the West and many trains delayed. Notwithstanding the large decrease in visible wheat there did not seem to be any strengthening in prices, owing it is thought to the large surplus of breadstuffs shipped abroad now remaining in stock. Wheat ruled very dull here, except in the May future, which reached the lowest point, namely 91c for the crop year this fall. The close was dull and weak at 1c off, as compared with Saturday on cash and 1/2c off on futures.

Cash No. 1 hard ruled dull, selling early at 86c and easing off 1/2c to close at 85 1/2c. Cash No. 2 ruled dull, closing at 86 1/2c bid. Cash No. 1 northern ruled dull, closing dull and weak at 84 1/2c. On track wheat closed at 85 1/2c. Cash No. 2 northern closed weak at 1/2c off Saturday's figures at 77c. On track was 1c better. Cash No. 2 spring rule dull, closing neglected at 1c off at 77c. Rejected closed without change from Saturday at 61. January No. 1 northern sold late at 85 1/2c and slumped for May on a difference of 1/2c in lots of 100,000 bush.

May No. 1 hard sold at 92c up to noon, but closed 1c off weak at 91c. May No. 1 northern ruled the most active on some fluctuations in prices, starting at 91c, going down to 90 1/4c 1/2c before noon and closing weak at 90c. Millers closed dull at \$1.50 for bran and shorts.

Flax closed dull at 92c.

MONEY AND WHEAT

Charles Pillsbury Expatriates Upon Prosperous Times and the Big Wheat Crops.

He Points Out the Causes of the Stringency in the Northwest Money Market.

The Short Crop in Europe a Great Blessing to the American Farmer.

MINNEAPOLIS, Jan. 12.—Charles A. Pillsbury, of Minneapolis, was interviewed at the Fifth Avenue Hotel, New York, yesterday. He said: "There has never been so much money in New York as there is today. Money has not been so easy for years, nor the indications of prosperity for the coming year so flattering as they are now. Wheat went down a peg the other day on the government report that the crop for this year would be 617,000,000 bushels, but I have no doubts that it will be more than that. Europe will want all our surplus product. If our crop had not been unusually large we could not meet the demand from England. Our crop this year is 100,000,000 bushels greater than it has been in a single year, and it is 200,000,000 bushels more than it was last year. "Had it not been for the shortage in Europe the great crop here would have proved a calamity to the farmers. Wheat would have been so cheap that it would not have paid to market it. France according to the best estimates is short in its wheat crop this year 100,000,000 bushels. Russia is short on its crop of grain, including rye and wheat, 300,000,000 bushels, and other European countries are short 200,000,000 bushels. The surplus of other countries have been sold and there is no supply to be had except from the United States. "It requires considerable time to get any noticeable benefits from a big crop. Money will be tighter at the start than it would with a short yield, because so much must be tied up in moving the crop. It is a gigantic business. Wheat to handle 500,000,000 bushels of wheat and it ties up a fortune to do it. The banks of Minneapolis, St. Paul and Duluth had to get together \$25,000,000 for this purpose alone. This naturally causes a stringency until returns begin to come in. In fact they are beginning to come now. Probably the farmers have parted with 60 per cent of their crop in North and South Dakota and Minnesota. There are \$30,000,000 to be brought in and distributed in payment for the wheat, and that means a great deal. I know of whole counties where the present crop will bring cash enough to pay off all the mortgages on the farms. This cannot fail to put that section of the country into good condition."

To Relieve the Hungry. PHILADELPHIA, Jan. 12.—Postmaster General Wainmaker stated Sunday that the Sunday schools of America should send a cargo of bread to the starving Russians. He stated that he thought a larger cargo could be secured if each Sunday school would give one or more barrels and that he was quite certain that all railroads of the country would be very willing to accept and transport the flour to a common shipping port.

Voting for Sherman. COLUMBUS, Ohio, Jan. 12.—The senate and house voted separately for United States senator today. In the senate John Sherman received 18 votes and James E. Neal 8. The resolution to investigate the States Senator Brice was discussed in vigorous speeches in the house, but action was postponed till Wednesday afternoon.

Some Annual Meetings. The following directors were elected this morning at the annual meeting of the stockholders of the Highland Improvement company: J. W. Williams, James Bardon, Luther Mendenhall, G. G. Hartley, Thos. Lowry, C. E. Shannon, Clinton Markell, C. P. Craig, A. L. Warner.

The following officers were elected at the annual meeting of the Duluth Iron company: Lon Merritt, president; E. G. Lapman, vice president; E. H. Hall, secretary and treasurer. The directors are Leonidas Merritt, E. H. Hall, A. R. Merritt, Clarke Lambers, N. B. Merritt, E. E. Lapman and L. J. Merritt.

The annual meeting of the stockholders of the State bank also occurred today. The directors elected were: M. O. Hall, Simon Clark, Morris Thomas, C. H. Struckey and J. B. Cotton. The directors meeting is being held today.

The Bethel Exhibition. The Bethel art loan, as was expected, is proving a great success. There was a large attendance last evening and a number of visitors in the afternoon. The art exhibit is proving a success and exciting much favorable comment. Last night was "Scotch night" and they comprised quite a large proportion of the audience. The program as published was rendered and every number gave satisfaction. Several of those appearing were accorded encores. The programs for the week were distributed yesterday and are quite unique, the cover being from an original design by David McKim.

AMUSEMENT. "All the Comforts of Home" to be Given at the Lyceum This Evening. It is refreshing, and quite often a novelty, to see something on the stage akin to real, every day occurrence and frequent observation. William Gillette, who made a special success with the authorship of "The Private Secretary," has given to the public a fitting companion piece to the last named in his latest work, "All the Comforts of Home," which is to be presented here at the Lyceum theater tonight by Charles Frohman's distinguished company of players. The piece is written in his happiest vein. We situations are very comical, the scenes full of fun, and the whole, to sum up, proves itself a comedy of high order, full of good humor and entertainment. The interpretation of this excellent mirth producer is in the hands of one of Mr. Charles Frohman's select companies. Among them are the mentioned Mr. S. Miller Kent, Mr. Frank Lamb, Mr. Samuel Edwards, Mr. Herbert Ayling, Mr. J. B. Holt, Miss Maud Hyslop, Miss Kate Denin Wilson, Miss Pearl Means, Miss Goldie Andrews and Miss Trella Foltz.

A ROUGH DIAMOND.

An Infuriated Elephant Breaks Loose With Disastrous Results. PERU, Ind., Jan. 12.—Diamond, the ponderous elephant of Wallace & Co.'s circus, at the winter quarters near this city, and one of the finest of his species in this country, has been unruly for several days, but little was thought of it Saturday morning he slipped his chain in the house where he was confined, and with freedom became a violent fury. He commenced by tossing the light articles of furniture about and then turned his attention to Mack, the pet bulldog of the circus, who has been his constant companion for five years. With one turn and twist of his trunk, the dog was sent flying through the skylight sixty feet away, landing outside dead. The fury of the beast was now a frenzy, and he started toward Dick, the favorite horse. In the rush the horse was impaled on the tusks and Diamond threw the horse up and down and in one instance clear across the inclosure. He then found another horse, which he proceeded to demolish the same as he did Dick. When the circus was started the appearance of a slaughter house, and coupled with the cries of the lions, tigers, monkeys, elephants and animals, the scene can be better imagined than described. Pandemonium reigned and about this time Manager Sweeney arrived. His first act was to enter the place alone and without any weapon. One glance at the elephant, however, caused him to retreat. Together with some 15 other employees, armed with spears, clubs and whips, he entered and approached the beast. Twice he was driven back, always returning and commanding the brute to do as he said. It was a question of mind over brute, and although in the deadliest kind of danger and narrowly escaping death many times the will power, aided by the utensils of war, conquered, and Diamond was driven into his corner and chained.

A BRILLIANT AFFAIR. President and Mrs. Harrison Entertained by Vice President and Mrs. Norton at their residence on Rhode Island avenue. It was a brilliant affair especially noticeable even in a season marked by such social successes as have already been recorded in our columns. Those invited to meet the President and Mrs. Harrison at dinner were the secretary of state, the secretary of the navy, the postmaster general and Mrs. Wainmaker, the secretary of the interior and Mrs. Noble, the attorney general and Mrs. Miller, the secretary of agriculture and Mrs. Rusk, Senator Harris, Mrs. Sheridan, Senator and Mrs. Manderson, Mrs. Rhinelander Jones, Gen. and Mrs. Schottel, Mrs. Slater, ex-speaker, and Mrs. Harpence.

After dinner a reception was given to which several hundred invitations were received. The reception lasted until midnight, and was enlivened by the discourse of popular aids by the Marine band which was present in full force. The next dinner in the course of the year will be given by Secretary and Mrs. Blaine on the 20th inst.

Here's a Rasal. MUSKOGEE, Mich., Jan. 12.—J. P. Andrews, who was fraudulently placed in a private insane asylum near Detroit he has been released and is now in the hands of his wife, Mrs. McGreger, a wealthy young woman of Jacksonville, Ill., has been released on the demand of her sister, Mrs. G. C. Gilbert of this city. Mrs. Andrews is perfectly sane, but is prostrated with grief and humiliation. She married Andrews when he was only 17 years of age, and he has left her a large fortune leaving her penniless in a mad house with two small children, the daughter of which was born in the asylum.

War Against Sunday Papers. PITTSBURGH, Jan. 12.—The Law and Order league will today serve 100 warrants for the arrest of all newspaper editors, news agents, carriers and employees of the Union News company who sell the Sunday newspapers upon the Sabbath day. The action is brought under the "blue laws" of 1794. The proprietors of the Sunday newspapers will take the matter to the supreme court. The league is also considering the propriety of proceeding against the proprietors of the Sunday papers under the same act.

In His Iron Coll. DENVER, Jan. 12.—Deputy Sheriff Smith this morning took Dr. Graves to Canon City. Arriving there the celebrated prisoner was without delay driven to the penitentiary. Officers were in wait at the prison and Dr. Graves walked through the big iron gate apparently unconcerned as any of the deputies. He was not placed in a cell until this morning when the doctor was required to don prison attire.

BUSY LAWMAKERS

The House Holds a Short Session This Afternoon and Passes Its First Bill.

In the Senate Mr. Dolph Modestly Asks for \$100,000,000 for Coast Defenses.

The Iowa Legislature Gets Together and Captures the Senate by A Scratch.

WASHINGTON, Jan. 12.—In the house today Mr. Taylor, of Ohio, reported from the judiciary committee a bill fixing the times and places of holding United States courts in Iowa, and it was passed, being the first bill passed this session. A number of bills were introduced and referred, and at 12:20 p. m. the house adjourned until tomorrow.

In the Senate. In the senate several messages regarding Indian affairs were received from the President. Mr. Dolph, from the committee on fortifications, reported a bill to purchase sites for fortifications; also a bill appropriating \$100,000,000 for fortifications and other sea coast defenses. Mr. Jones regarded the amount as excessive, but Mr. Dolph defended the measure as one of necessity.

At 2:20 p. m. the senate adjourned until tomorrow.

THE IOWA LEGISLATURE.

The Republicans Capture the Senate With the Help of a Granger. DES MOINES, Ia., Jan. 12.—In the senate this morning amid great excitement the republicans, with the aid of Granger, the people's party, carried a motion with the casting vote of the retiring republican lieutenant governor to proceed to permanent organization before canvassing the vote on the governor and lieutenant governor. This will enable the republicans to capture the organization and hold it for the session. The senate then proceeded to vote for secretary, the democrats abstaining from voting. Only 25 votes being cast. Lieutenant Governor Fayner ruled that there was no election. The senate then adjourned till 2 p. m. Both parties are now canvassing.

THE PRETENSE FRAUD. The Real Estate Exchange Deprecates the Advocacy of its Cause by Local Papers. The Real Estate exchange yesterday afternoon passed the following resolutions, reflecting on the action of the Duluth press, which in line with some earlier remarks in The Herald on the same subject: Whereas, the alleged claim of one Frederick Prentice against much of the property of the Third division of Duluth has been after time adjudicated in state and federal courts adversely to Prentice, and never in his favor, has been passed in turn to the judges of last resort, having scarce enough weight to obtain a respectable standing in these courts; and

Whereas, Matters have reached such a pass with this said Prentice that his sole endeavors in delegation for many months, have been to the detriment of the city and delay of the hearing of his own suits as well as those brought against him, he well knowing that his only opportunity of receiving money in settlement must be before further and soon expected decisions in the federal courts, which settlement he has been obliged to make in order to obtain a respectable standing in these courts; and

Whereas, The publication of matter favorable to this claimant tends and has tended to drive away outside capital seeking investment in Duluth but unfavored by the true merits of the situation, and also tends to unsettle timid local holders, and injure those who by stress of circumstances are compelled to make immediate use of their property; Resolved, That we deprecate, as being against the best interests of the city, any publication or advertisement, or otherwise, in any Duluth medium for such publication, of any matters tending to assist Prentice in the pushing of his claim, or in the levying of claims from holders of Third division property.

CITY BRIEFS. Dr. Northrop analyzed "The Merchant of Venice" before the Round Table last night in a manner pleasing the large number present. Tonight he delivers a lecture in the High school course at the Temple "Historic Lessons."

A party of 35 "shriners" occupied a special car on this afternoon's train for St. Paul. They go to attend a meeting to be held tonight at the meeting of the Grand Masonic lodge. A party of 15 men from here are to be given shrine degrees.

MR. DAVIS DENIES

That He Promised to Aid Alderman Long; General Political Talk. Mr. Long caused the political sensation of the day by a published interview, attempting to show bad faith on the part of Mr. Davis. But the attempt is likely to prove a political boomerang. "I can hardly believe that Mr. Long is quoted correctly in the Tribune of today," said Mayor Davis to a Herald reporter this morning. "For the stories attributed to him are manufactured out of whole cloth. He has never asked me the questions given there and I have never made the answers credited to me. Before Mr. Long went to Washington he came to me and asked me to let him be the first one to know when I had made up my mind as to whether or not I should be a candidate. I agreed to this, but did not say whether I would or would not accept a nomination for mayor. It was too early then for me to have decided whether I was desirous of a nomination or not. I had no means of knowing how such a step on my part would be regarded by the people at large, and until I have some means of judging of that sentiment after he returned Mr. Long came to me and repeated his former request and received the same answer. I had not then decided. I have never told him whether I was a candidate or not. I have never said to him that I would not accept a nomination on account of the demands of private business. I have never said I would be no impediment in his way and would not make any declaration of intention to the direct question. THE CHAMBER MEETING

Letter From Senator Davis and Resolutions on Reservation Matters and Savannah River.

The Band to Have a Benefit Concert and the Chamber a Membership in the National Board of Trade.

The Return of W. H. Fisher From the East, and What He Has to Say About Winnipeg Railway Matters.

The chamber of commerce held a well-attended and interesting session this morning, with President Baldwin in the chair and Secretary Thompson at the bat.

A letter from Senator C. K. Davis was read, in which he expressed his disapproval of the scheme to fence in Northern Minnesota, and assured the chamber that nothing but his correspondence had been neglected. The effect of the letter was to convince the Duluth people their interests are being carefully watched by their senatorial servants in Washington.

The secretary was authorized to apply for one membership for the chamber in the national board of trade, resolutions favoring the improvement of the Savannah river from Savannah to the sea were passed, and the date of the excursion to Montreal was fixed on March 8.

Resolutions were also passed asking the repeal of that section of the timber culture law which gives the President power by proclamation to set aside tracts of land for park and forestry purposes. It was provided that a copy of these resolutions be sent to each of our senators and representatives in congress.

Secretary Thompson urged upon the chamber the many delights afforded by the Duluth band on the Dakota excursion as a reason for giving the band a benefit concert at an early day. It was ordered that the chamber appoint one member to co-operate with one from the city council, and one from the jobbers union who should form a committee to take the matter in charge. The band has agreed that any excess over the expense of securing uniforms and needed equipment will go towards reducing the charge for accompanying the Montreal excursion.

The regular routine work of allowing bills was transacted, and a copy of the statistical work being prepared by M. A. Hays and Ralph McKenzie were ordered.

Secretary Thompson asks the Herald to announce that Mr. James E. York will address a public meeting in the chamber at 4 p. m. tomorrow.

MR. FISHER TALKS.

The Annual Meeting of North Star Construction Company and Its Effects.

Mr. Fisher returned from the East this morning after attending the annual meeting of the construction company which is building the Duluth & Winnipeg. When asked about the changes announced yesterday in the Herald he said: "Some changes were made at the annual meeting. Mr. Baker has become so interested in his steamship business that he asked to be relieved from his office and Mr. Wright consented to accept it. Mr. Munger was also elected to the directorate and has a place on the executive committee. I do not think the new officers mean any special change of policy. They are favorable to Duluth but the Duluth & Winnipeg has always been that. Our policy has been to get into Duluth as soon as possible and would let us and we could afford it. That is the present policy. You and every one know how we stand in regard to Duluth. Beyond this I do not think there is anything of interest I can say."

The impression, however, remains current that the change in officers may result in good and that it cannot do harm. Mr. Wright is expected here about January 20 for a short stay.

CITY BRIEFS.

Smoke Endion cigar, W. A. Foote & Co. Judge Ayer is still quite ill with the grip.

Amos Shepard is confined to his bed with an attack of the grip.

A benefit entertainment for the Duluth band will be given at an early day.

The Bethel art exhibition opened up last evening with a good attendance.

The roll of delinquent city assessments has been turned over to the clerk of the district court by the city comptroller.

Voters are being registered at all the city precincts today. The first day's returns will be light.

A meeting is being held this afternoon to make arrangements for the Police-men's annual ball, which will be held about Feb. 3.

C. O. Baldwin and Eric L. Winje are being prominently mentioned as candidates for the regular and special municipal judgments.

There will be a mass meeting tonight at the city hall at West Duluth in the interests of the Humane society. Several speakers will be present.

There will be an entertainment in Catholic Association hall this evening at which Bishop McGlock will address the audience. Music will be his theme.

It will be a disappointment to many to learn that the "Cin Steward" will not observe the anniversary of the birth of Robert Burns this year, as has been their custom in the past.

The Knott club will give a sleigh ride party to friends of the members Friday eve, Jan. 15. This club was organized about a month ago and has already proved a social success among junior Duluthians.

Well attended meetings of the Unity club and the Round Table were held last evening. At both the programs announced were carried out. The address of President Northrop was particularly entertaining and scholarly.

Notice. I hereby announce myself as candidate for mayor of the city of Duluth and respectfully ask the voters to cast their ballot for me. I elected I will give the people an administration second to none. Yours, J. A. MANNHEIM.

The Markets Today are Dull and Lifeless With Slight Transactions Among Bulls and Bears.

The Local Market Stumps off Half a Cent all About the Line From the Figures Prevailing Yesterday.

Railway Stocks are Firm With the Outlook of Increasing Business, and Generally Show a Slight Advance.

The market here opened off 1/8c on May and about the same on cash. May sold up to 90c shortly after the opening on No. 1 northern, but soon weakened to 89 1/2c, recovering between 11 and 12 m. to 90c, and sagged off shortly after the noon hour to 89 1/2c bid. The early weakness was due to weaker cables and the apparent continued selling of the heavy shorts on the Chicago board.

Liverpool spot wheat was reported 1/2c off in late cables and futures off from 1/4 to 1/2c. Cables brought more selling than buying orders to New York. Clearances from New York yesterday amounted to only 150,548 bu of wheat and flour. It was reported that wheat on passage had decreased 600,000 bu and corn 1,700,000 bu. The principal demand here today was for cash wheat on declining prices. The market for the entire session was dull, lifeless and declining. The receipts of wheat here and in the Northwest continue very light, the car receipts here today falling below those of last year, the first occurrence of the kind during the crop year. The close was 1/2c higher. On track closed 1c better. On track was 1c better. Cash No. 2 northern ruled dull, selling early at 78c, an advance of 1/2c over yesterday's close, but easing off to closed dull at 77c. No grade sold at 73c and on track was about 75c at the close. No. 3 spring wheat ruled dull, but steady and unchanged at 71c. No grade sold early at 67c. Rejected ruled steady and without change, closing 6c.

Cash No. 1 hard wheat opened weaker and dull at 84c, but closed nominally at 1/2c higher. On track closed 1c better. THE IRONTON PLANT.

Mr. York who is in negotiation with the Ironton Land company for the building of a steel plant upon their town site, is in the city. The plant contemplated will employ 500 men and cost \$500,000 to erect. The annual meeting of the Ironton company will be held February first, when the matter of this plant will be considered. Mr. York will address a public meeting in the chamber of commerce at 4 p. m. tomorrow.

Whisky Cases. Two Indian whisky cases were tried before Judge Carey. Both the defendants, Alex Mills of Tower and Samuel Estes of Mora, were held to the United States grand jury which convened at St. Paul today, on a charge of selling whisky to Indians. District Attorney Hay was up to attend the cases but returned to St. Paul last night.

DANCING INDIANS.

General Dissatisfaction Among the Sioux Because of Their Last Year's Prodigality.

Wrapped in a Mantle of Sullenness, They Dance the "Omaha" to Keep Warm.

Fretful, Pierced With Regret, They Harbor Most Unkind Feelings Towards Uncle Sam.

PINE RIDGE AGENCY, S. D., Jan. 13.—Everything is quiet here so far as appearance goes, but there is no denying the fact that there is general dissatisfaction among the Indians who as a rule spent all their money last summer and fall in making ghost shirts and arrows. There has not been a deal of danger until the recent cold weather. The Indians claim to be dancing the "Omaha," but those who have the best opportunity of knowing say that the dance is a mixture of the Omaha and Ghost dance, retaining all the peculiar features of the latter.

A lot of Indians left here last fall to visit the place where the Messiah made his appearance and have but recently returned, but all the efforts of interpreters have failed to elicit any information from them concerning their trip. No one anticipates any immediate trouble, but there is a sullenness among those that participated in the hostilities last year that is by no means reassuring. They are jealous of anything being said or written about their movements, and have recently threatened to boycott a trader who had told some one they were buying so much white cloth for the purpose of making ghost shirts that it was hard to keep it in stock.

In the annals issued this year there have been no blankets, boots or shoes, owing it is believed, to the blankets being condemned. But to the Indians way of thinking, it is another branch of faith and now comes the land decision of Attorney General Shields which does not suit the Sioux. They claim the mixed bloods as their children and declare that if the land is not to belong to their children it does not belong to them, and that the government is only letting them claim and hold it by force. Young men afraid of his horses was heard to say in regard to the decision, "Not until after I am dead can they take the mixed blood from us." All the other leading chiefs express similar views upon the subject.

A FAIR TRADE HOUSE.

The Tariff Question as Outlined by Howard Vincent.

LONDON, Jan. 13.—The provincial newspapers are devoting much attention to the tariff question as outlined in Howard Vincent's speech yesterday at Sheffield, which city he represents in parliament as a national conservative. The meeting Mr. Vincent addressed is classed as being one of the most notable in years, and has been converted into a regular boom for fair trade. Among those present were a very large number of leading employers and labor at Sheffield and elsewhere, who by their repeated outcries of applause showed themselves in hearty sympathy with the distinguished speaker. Among other things Mr. Vincent said that he had seen with his own eyes the enormous prosperity of the United States and that he had seen an almost complete absence of ill-fed, unpaid workers which were to be seen on every side in other countries. England's cry for free trade was like crying for the moon. The speaker denounced the existing commercial treaties which govern the commerce of England and her colonies as being handcuffs which fetter the British trade.

Mr. Vincent insisted that Canada did not want a union with the United States, saying that on the contrary Canada desired to enter a fair trade league. At another portion of his address, Mr. Vincent declared that ex-president Cleveland and his program of radical tariff reform had been sent to the rear by the Americans who would not hear of a reduction of the United States tariff. The British people, consequently, had reason to hope that an era of fair trade was approaching in the United States.

Stole the Mail Pouch. RACINE, Wis., Jan. 13.—Monday night as the midnight train from Chicago on the Northwestern road pulled in the mail agent threw off the mail pouch which is called for at the station in the morning. A stranger, who had been in the pouch and disappeared. The pouch was found near the platform with a slit in it and all packages were intact, except that there were no registered packages in the bag. What the loss will amount to cannot now be ascertained.

Orange and Lemon Trust. SAN FRANCISCO, Jan. 13.—An orange and lemon trust has just been formed at Riverside. The stockholders are principally the older residents, who own the finest groves in the finest of all the orange-producing sections. They intend to make a specialty of fine packing, and thus establish a first class reputation for their brands.

CONGRESSIONAL MATTERS.

Both Houses Hold Short Sessions at the Capitol Today.

WASHINGTON, Jan. 13.—In the house today Mr. Holman offered a resolution against bounties and subsidies and in favor of general economy. He demanded the previous question which was supported by a vote of 105 to 54. There was considerable excitement. The debate on the resolution was postponed until tomorrow.

Mr. Lynch offered a resolution giving Ashland, Wis., a delivery postoffice; Jan. 30 was fixed as the date for eulogies of the late Mr. Hook, and the house at 2:15 adjourned.

In the senate Mr. Gordon, of Georgia, expressed his disapproval of the bill appropriating \$100,000,000 for coast defenses. He thought the country was in more danger from extravagance than from a foreign foe. Mr. Mitchell called up a resolution instructing the committee on judiciary to formulate a measure to relieve the court of claims. Mr. Hoar introduced a bill on that subject.

Eloped With a Negro. ALLIANCE, Ohio, Jan. 13.—Eloped with a woman it is the ordinary line when a pretty white girl leaves a good home and casts her lot with a burly colored man. The girl is Emma, the pretty 17-year-old daughter of Mr. Bellamy, of Canton, and the colored man is Ed Hackett, who is possibly 28 years of age. The girl left her home last Saturday saying she would return Sunday. Not returning then, her parents made inquiries and learned on learning that her daughter was seen last with a colored man. It seems that the affection was mutual between the two for some time and lately they have been seen together quite often. Just where the two are is not known, but search has been instituted and the parents are determined to rescue their daughter from the hands of her colored paramour. Hackett, if caught, will be prosecuted.

Confagration at Leeds. LONDON, Jan. 13.—A dispatch from Leeds says that a terrible confagration is raging there. The resin and soap works, situated beneath the combined Midland railroad and Northern railroad stations at that place, have caught fire, and the approaching collapse of the building, said to threaten to stop all railroad traffic at that point. The situation is described as one of great danger.

Four Hundred Drowned. LONDON, Jan. 13.—A dispatch from Hong Kong says that the steamer Nantong is foundered off Capri Point, and that 414 people, including the European crew of the steamer, have been drowned.

The Duke Still Lives. LONDON, Jan. 13.—3:30 p. m.—The duke of Clarence is still alive and he that he will recover has not been entirely abandoned.

DAUGHERTY NOT A CANDIDATE. The Senator Talks to a Herald Man on Various Matters.

The name of Senator F. B. Daugherty has been frequently used in connection with the mayoralty, and the party convention being close at hand, a Herald representative saw him this afternoon and inquired his position.

"I am not a candidate for mayor, and would not accept the office at all times, but I do not mean to underestimate the importance of the office, but to be a good executive requires that the mayor devote much time to public affairs, keeping in touch with the work under the fire board, the board of public works, and the council. This would take all my time and I am not yet ready to retire from private life."

"What about the quarrels in your party, senator?" "I never think there is any quarrel now, and I never knew a time when there was such a universal desire on the part of republicans to get together and present a united front as there is at the present time."

"Can you foretell the nominee of your party, senator?" "No, I can't do that today, and I am only interested in seeing the party choose a good man who is a republican and will be a credit to his party, and to the city. You are of course well acquainted with Senator Donnelly, what do you think of his election as president of the alliance?"

"Mr. Donnelly is the best man in his party and his re-election was the only way the alliance could hold itself together in the state. And I want to say right here that whenever any Duluth measure came up in the legislature last winter Donnelly always took hold and helped our side, especially when we were fighting the St. Paul or Minneapolis. If there are any alliance men in Duluth they ought to thank Donnelly on that account if for no other reason. From my acquaintance with him I believe he is thoroughly honest in his advocacy of alliance principles."

"By the way, senator, what do you think of the human fire tug scheme?" "I think it is a warning shame that the city has such a fire tug protection around the harbor, and the plan which Capt. Inman offers I think the most practical one for the reason that our docks are situated so far apart that one tug could not afford immediate relief, but with the Inman fleet some of the tugs would be in all parts of the harbor and could hold a fire in check till the others arrived. The expenses of such a system would be very light compared with the cost of like protection borne by other cities."

CITY BRIEFS. Smoke Endion cigar. W. A. Foote & Co. A meeting of the Tilden club will be held this evening.

A FERTILE SCHEME

Blessings of the McKinley Bill Will Soon Develop as a Blossoming Rose.

An Ingenious Scheme For Investigating the Workings of the New Tariff Measure.

John Sherman, Ohio's Honored Statesman, Formally Rejected as His Own Successor.

WASHINGTON, Jan. 13.—Representative Sherman, of Massachusetts, and some of the other democrats have devised a very ingenious scheme to bring before the public the full blessings of the McKinley Bill. During the summer a sub-committee of the senate finance committee has been investigating the effect of the tariff on prices. For the democrats to now do the same thing would take too long and make the information of practically no use during the coming campaign. Mr. Hoar and his associates therefore decided to attack the bill in detail and by using several committees of the house to conduct the investigation simultaneously and get the desired information in a very short time. With this purpose in view Mr. Hoar has introduced a resolution directing the committee on manufactures to report to the house the effect upon the country of the present accounts of the collection of revenue by means of duties upon imports.

A similar resolution to ascertain the effect on agriculture has been introduced by Representative McKenna, of New Hampshire. Lapham, of Rhode Island, has introduced a resolution to have the tariff on foreign commerce, when the committee on interstate and foreign commerce will have to wrestle with it.

If these resolutions are adopted, and it is believed they will be, four committees of the house will be engaged in investigating the tariff from different points of view, and the results are bound to be interesting.

SENATOR JOHN SHERMAN. Formally Chosen to Succeed Himself in the United States Senate.

COLUMBUS, Ohio, Jan. 13.—At noon today the senate and house met in joint session in the house to choose a United States senator. The call of the rolls showed 24 senators and 68 members of the house present. The clerks of the two houses then read the names of the separate elections held yesterday. The minutes showed that Sherman had received a majority of the votes in both houses. Lieutenant Governor Harris, presiding, then declared John Sherman of Ohio for the term of six years, beginning March 4, 1893. A committee was appointed to escort Senator Sherman, who arrived from Washington early this morning, from his hotel to the hall of the house.

Will Petition for Mercy. DENVER, Jan. 13.—There is talk now of getting up a monster petition to the governor asking him to commute the sentence of Dr. Graves. Pressure has been brought to bear from several points, and the time is ripe for the forces will be united and executive clemency will be sought. Governor Routt is a kind-hearted man and one likely to meet their requests, provided the appeal to his humanity is general.

A Home for the Deafblind. SPRINGFIELD, Mass., Jan. 13.—Primus Parsons Mason, one of the most interesting and best known colored characters in the city died yesterday. He was 75 years old. He leaves a fortune estimated at \$50,000 to found a home for deaf blind men.

Cardinal Manning Dying. LONDON, Jan. 13.—Cardinal Manning, who for some time past has been ill with influenza, is this morning reported to be in a very critical condition. The last sacrament has been administered and all hope of saving his life is abandoned.

TELEGRAPHIC BRIEFS. Congressman W. C. P. Breckenridge, of Kentucky, has been chosen to deliver the inaugural oration at the dedication of the World's fair buildings in October.

Advices from Pekin are to the effect that the returns for 1891 show an increase in foreign trade greater than for any year since Chinese ports were opened to foreign commerce.

An additional sum of \$5,000,000 roubles has been assigned by the Russian government to famine relief purposes.

The York Power block on Center street, Cleveland, Ohio, near the central viaduct, was destroyed by fire late last night. The total loss is estimated at \$140,000.

More than 600,000 volumes of the tenth census reports have been distributed and Mr. Ames, superintendent of public documents, says no other public document has ever had a wider or more general circulation than this publication.

COMMISSIONERS WILL CONSIDER.

Plans for Water Front Protection to be Considered by the Fire Commissioners.

A special meeting of the fire commissioners is being held this afternoon to discuss and consider plans for fire protection along the water front. The plan recently submitted by Capt. McDougall will be taken up for discussion, but it is not likely to be adopted, as it is not looked on with great favor by the chief of the fire commissioners. They believe that the first cost has been greatly underestimated, and that of maintaining the boat as well. But the point of the scheme which meets with the least favor is the idea of a fire boat without its own motive power. This, it is said, will cause a great amount of expense and vexatious delays. Capt. Inman has just returned from a trip to the lakes, where he has been investigating the subject of boats for fire protection and will today submit a new proposition. The captain believes that the best possible scheme which can be put to practical use, outside of the building and equipping of a regular fire tug, will be the fitting up of three or four tugs with Worthington pumps of from 1200 to 1600 gallons per minute capacity. The figures he will submit for protection will be slightly lower than those contained in the proposition submitted some weeks ago. If the board care to adopt some other plan, however, the captain is prepared to furnish estimates on anything which may be desired, from a scow up to an expensive fire boat.

A NEW ENGINE.

Contracts Let For Some Additions to be Made to the Street Car Plant.

If Duluth does not soon have as perfect a system of street car service as there is in the Northwest, it will not be the fault of the present management. Several important contracts have just been closed which will add very materially to the equipment of the line. The most important of these contracts were with the E. P. Allis company, of Milwaukee, for a new horizontal cross compound engine of 1000-horse power. The new engine, though of a different type, is about equal in power to the one recently placed and will in operation in the Imperial Mill. The new engine has a 5-foot stroke, a high pressure cylinder 30 inches in diameter, and a low pressure cylinder 48 inches in diameter. The wheel will be 10 feet 8 inches across the face, 28 feet in diameter and will weigh 30,000 lbs. It is to be located in a new building to be located on the east side of the present Superior street power house. The new engine is to be ready for delivery by May 1, and the power house will be ready by that time to receive it. When it is in place the company will have a motive power for their plant greater than necessary just at present, but it will make their equipment perfect for the purposes desired. A contract has also been closed for two new 17-ton generators of the Multi type, each of 335 horse power. These will be added to the new car equipments and five old ones have been exchanged for new. These are all for use in the power house in operation. If new lines are opened further equipment will be necessary. The new addition to the power house will be finished in hard wood with an oak floor and will have a visitors' gallery opening onto Superior street which will be open at all times for the inspection of the engine and generator rooms.

A NEW BANK.

It May be the Outcome of Differences of Opinion in the State Bank.

The import of changes made in the directorate of the State bank at the annual meeting yesterday have only just leaked out. The story is an interesting one. Some time ago a proposition was made to increase the capital of the State bank to \$200,000. Mr. Hall, the president, was in control of a majority of the stock and for business reasons would not, it is said, allow the change to be made as that would throw a majority of the stock against him and he was not willing that the control should go out of his hands. Seeing this was to be his policy the old directors declined to vote and a new board, to whom Mr. Hall transferred stock to qualify them, was elected. Those stockholders who were desirous of making the change are said to be considering two methods of action. One to use certain means to compel the taking in of new capital and the retirement of Mr. Hall from his control in the stock, and the other to form a new bank with the capital pledged to carry up the added capital stock of the old. Some interesting developments may be expected shortly.

Special Council Meeting.

A special council meeting has been called for this afternoon. Some time ago a number of assessment certificates were sold to Eastern bond buyers and before being issued were divided into different denominations by Comptroller Ten Broeck. This action on his part was perfectly legal and correct but the Eastern men prefer that this action should be approved. The certificates are lying idle in the East and cannot be sold until this formality is complied with. In order that no time might be lost Mayor Davis called a special meeting.

The Chicago Company.

The party of it, including the Southern men interested in the Chicago mine who have been exploring on the range returned today and report a very cold trip but very satisfactory results. All of the Southern men, a part of whom had never before visited the range, are enthusiastic in their descriptions of the wealth of the Mesaba. The Chicago company, which owns to "40's," west-west of the Canton property, will be organized at once and capitalized at \$5,000,000.

The Deadlock Broken.

The deadlock in police matters was broken yesterday and there were three names on the police court list this morning. Chas. Burns and Ole Dahl were sent up for 10 days each. Joseph Johnson, charged with being a vag, pleaded not guilty and will have a hearing this afternoon.

POLITICAL SITUATION

The Race For Mayor Will be Between Davis, Long and d'Arment, With Odds For Davis.

Mr. Truelsen Not in the Fight and Simon Clark Will Not Allow His Name to be Used.

The Results of the First Day's Registration Indicate the Casting of a Heavy Vote.

The political situation is fast resolving itself into such a shape that something tangible can now be used on which to base conclusions. The democratic committee met last night and called a city convention for Friday afternoon so that their candidates will be the first in the field. There is very little doubt that Chas. d'Arment will be their candidate for mayor. Mr. Clark has absolutely declined to allow his name to be considered. Mr. Truelsen, whose name was mentioned in connection with the mayoralty stated to a Herald reporter this morning that under no circumstances would he allow his name to be used. A meeting of the Tilden club will be held this evening and a plan for an active campaign laid out. The democratic candidates for the two judgeships will probably be C. O. Baldwin and L. J. Wine.

The peoples party men are very serene. They have decided upon their course and there is no internal jangling. There is no doubt but that they will nominate Mr. Davis and do their best to elect him. But his action puts the republicans in a bad position. They hardly know what to do. The better element of the republican party are in sympathy with the present administration, but there is some question as to whether the republican convention will be ready to endorse a nomination already made by the people's party. Mr. Davis, too, is put in an uncomfortable place. He must depend upon the people's party for a large measure of the support he will receive, but at the same time he does not feel certain of election without republican support. He dare not decline the people's nomination. He dare not postpone his acceptance until after the republican convention. If he accepts the first nomination he fears he may lose the second. Just what he will do is uncertain, but he will probably accept the "bird in the hand" and take his chances on what comes afterwards. The most interesting feature in the campaign just now is the contest between Mr. Davis and Mr. Long. It has come down to a question as to which tells the truth between the two. Mr. Long says "he did," Mr. Davis says "I did not," you pay your money and take your choice. The presumption, however, is greatly against Mr. Long as such admissions as he attributes to Mr. Davis would be very poor politics.

Mr. Davis when seen this morning had nothing to add to what he said yesterday. He has denied flatly the assertions made by Mr. Long and can do more. Mr. Long is developing a considerable strength. His nomination by the republican convention is by no means an impossibility, though his election is looked upon by prominent republicans as a remote contingency. He is in the fight for blood, however, and nominated or not his name will appear on the tickets. The defeat of his name would be a severe one. In the first hour prices weakened but towards 11 o'clock a strong tone was developed. The general list was slightly higher, as a rule, at 12 o'clock than at yesterday's closing.

CITY BRIEFS.
R. M. Hunter has taken out a permit for a Woodland Park station to cost \$700.
Geo. W. Holmes and Bryon Segog have begun suit in the district court against the State land to quiet title to lands in section 4-6-12.
The firemen have decided upon Feb. 22 as the date of their annual ball. To judge from the experiences of the past there is every probability that their party will be a social and financial success.
A new law firm has been added to those already located here. Mr. E. J. Towne, of Chicago, and Mr. Davis, of New York, have associated themselves in partnership and will have offices at Nos. 2 and 3 Graff block.
At the meeting of the directors of the State bank held yesterday, M. O. Hall was elected president in place of W. K. Rogers. C. H. Stuckey, who has been teller was made cashier and Harold Thorsen, of Minneapolis, was made vice president.
The following variations in temperature were recorded at the Pioneer Fuel company's office, hotel St. Louis, 326 Superior street: 12 o'clock, -3.3 p. m., -0.6 p. m., -0.1; 10 p. m., -2.7; 7 a. m., -1.1; 9 a. m., -1.0; 12 m., -3.5; Maximum, 4; minimum, -12; daily range, 16.
The following officers have been elected by a ladies' universalist society just organized: President, Mrs. M. W. Lewis; first vice president, Mrs. A. H. Mead; second vice president, Mrs. G. G. Hartley; secretary, Mrs. E. C. Thurston; treasurer, Mrs. F. W. Maynard.
A very enjoyable time is promised those who attend the reception to be given tonight by the Y. W. C. T. U. at the home of Mr. and Mrs. R. H. Harris, 227 West Third street. A musical program of unusual excellence will be rendered. All active and honorary members cordially invited.
The committees appointed at yesterday's meeting, called to make preliminary arrangements for the policemen's ball, were as follows: Arrangements—Capt. Horgan, D. Kenna, T. Hayden, F. Horgan, M. Smith, Floor managers—Officers Smollet, Miller, Fuller, McLean, Smith and Horgan. The committees will meet again next Saturday.

WORLD OF COMMERCE

The Stock Market is Firmer and More Active With the Business Distributed Throughout the Whole List.

The Decrease in the Visible Supply of Wheat Together With the European Demand Holds up the Grain Market.

Local Opening Prices Were Little Changed, But a Slight Upward Reaction From Yesterday's Break Set In.

Bradstreet's report shows the decrease in wheat on the Pacific coast was 1,447,000 bu, on east of the Rockies 138,000 bu, making a total decrease of 1,585,000 bu. The heavy clearances of wheat and flour exports from New York yesterday, amounting to 425,410 bu and the report of further large exports to-morrow acted also to strengthen prices. The clearances of four ports yesterday were 612,303 bu in wheat and flour. Bradstreet says that the December increase in stocks of wheat were the heaviest for that month in five years and probably the heaviest on record. The requirements of Europe are put at 490,000,000 quarters.
Here today the market ruled quiet and dull, going up 1/8c on May No. 1 northern in the first hour, followed by an easier feeling; prices having slumped off 1/8c before noon. The close was firm, but dull at 156 1/2c advance on cash and from 1/8c to 1/4c advance on futures as compared with yesterday's figures. The slight reaction in the forenoon was fully recovered.
Cash No. 1 hard closed firm at 85 1/2c. Wheat on track closed at 86 1/2c. Cash No. 1 northern closed at 84 1/2c. Wheat on track closed at 85 1/2c. Cash No. 2 northern sold early at 78 1/2c, closing at the same figure. Cash No. 3 spring closed at 72c. Rejected wheat sold in car lots at 62 1/2c and closed at same, January No. 1 hard at 85 1/2c. May No. 1 hard closed with sellers at 91 1/2c. May No. 1 northern closed at 92 1/2c sellers.
Millstuffs closed stronger at \$12 for bran and shorts in 200-lb sacks.
Flax ruled dull and closed at 91 1/2c.

FOR A NEW CENSUS.

The Enumeration Bill Passed by the New York Democratic Senate. ALBANY, N. Y., Jan. 14.—The senate today passed the enumeration bill. The only change was as to the date of beginning the census, making it Feb. 16. The republicans protested but were ruled out of order and not allowed to speak.

THE DEMOCRATS WIN.

The Iowa Deadline Terminates in the Election of Democratic Nominees. DES MOINES, Ia., Jan. 14.—The deadlock in the senate was broken by the election of Cliff, republican, for secretary, and all other democratic nominees, Brower acting with the democrats.

Terrific Gas Explosion.

ANDERSON, Ind., Jan. 14.—A terrific gas explosion occurred here last evening. Dave Dillon's boarding house was blown down to pieces and a number of people badly injured. Dillon went into the cellar to see where the gas leak was located. He struck a match and the explosion followed. Mrs. Dillon's wife, who was badly injured about the head and breast. Maud Dillon, his daughter, had both legs broken. The explosion was caused by a gas leak in the main pipe and the gas followed the service pipe into the house. The ground for half a square around the wrecked house was broken by the explosion and gas issued from it which took fire and raged furiously for an hour or more until the mains were cut.

The Grip Epidemic.

OTTAWA, Jan. 14.—Ottawa has nearly 700 cases of grip. Such is the prevalence of the epidemic in the county of La Salle that all the cases on the law calendar are reported in this city. The grip continued because of the illness of attorneys, principals or witnesses, while the courts were closed. It is estimated that nearly 6000 people in the county are down with the epidemic, which, however, results fatally in a very small percentage of cases.

Warsaw, Ind.—Over 500 cases of the grip are reported in this city. The grip has grown from a mild state to almost a raging epidemic.

Speech From the Throne.

BERLIN, Jan. 14.—After the opening of the Reichstag today Chancellor Caprivi read the speech from the throne, the emperor, contrary to expectations, not being present. No reference to foreign affairs was made in the speech, which announced that the government would introduce bills providing for the disposal of the land of the Prussian crown and for the extension of the government railway system. The financial situation was stated to be less favorable than in 1901, and it was suggested as possible that the deficit would exceed last year's surplus.

A Brutal Murder.

SAULT STE. MARIE, Jan. 14.—[Special to The Herald.]—A great tragedy occurred at the Sault Ste. Marie, Mich., on the morning of Jan. 14. A man named Dan McArthur, a Canadian, was brutally murdered in the saloon of D. Potvin last night. McArthur was in the saloon drinking with a number of other men when an unknown person entered and shot him in the chest. The bullet entered his heart and he died almost instantly. The police are now searching for the murderer.

The Mississippi Frozen Over.

ST. LOUIS, Jan. 14.—For the first time in four years the Mississippi river is frozen at St. Louis. The ice began to form at Cairo, N. Y., on the morning of Jan. 14, and extends to the Illinois river. The river will not be open for boats inside of 30 days. If the present cold weather continues and the ice should move with a rush, it is feared much damage will be done to river craft.

A Lieutenant Disgraced.

HANNIBAL, Mo., Jan. 14.—The grand jury yesterday found a true bill against James E. Dodge, charged with the murder of a woman named Dreda. Dodge was a lieutenant in the army and was discharged on account of insanity. He was found guilty and sentenced to 20 years in state prison. The case was a sensational one and drew a large crowd of spectators.

A Bad Failure.

MONTREAL, Jan. 14.—George A. Mooney & Co., tanners, have failed and George A. Mooney has fled the city. An investigation has brought out the startling fact that hardly a dollar's worth of stock has been left in the tannery and what machinery is left is covered by mortgages. Loss to creditors is about \$100,000.

The Earth Trembles.

MEMPHIS, Tenn., Jan. 14.—A distinct shock of earthquake was felt here this morning at 10 o'clock. The vibrations were from north to south. Buildings were shaken and several suburban residents were awakened from their slumbers.

Was an Embezzler.

NEW BRUNSWICK, N. J., Jan. 14.—The examination of the books of Wilton Hill, late cashier of the Jamesburg bank, shows that he was an embezzler in the sum of \$25,000 as originally charged. It is also known his estate is involved by debt to the extent of \$20,000.

FROM WASHINGTON

The Senate Goes Into Secret Session This Afternoon to Discuss the Nomination of an Elmira Man.

David Bennett Hill Opposes the Confirmation and the Appointment Goes Back to Committee.

Some Postmasters Named: Washburn Talks on His Option Bill; Iowa Is Solid For Blaine.

WASHINGTON, Jan. 14.—The nomination of Louis G. Rathbun to be postmaster at Elmira, N. Y., was debated this afternoon in secret session of the senate. Senator Hill opposed the nomination and it was sent back to the committee on postoffice and post roads until further information concerning the removal of Mr. Rathbun's predecessor, Mr. Flood, and the appointment of Mr. Rathbun could be procured.

Senator Cullom, of Illinois, presented a bill which he said had been forwarded to him by Mr. Rogers, chairman of the railroad commission in New York, who was also a member of the organization having under discussion the special subject in question. It was entitled "A bill to promote the safety of employees and travelers by compelling common carriers to equip their cars with automatic couplers and continuous brakes and locomotives with driving wheel brakes." Mr. Cullom asked that this bill be referred to the committee on interstate commerce and it was so ordered.

Mr. Wilson, of Iowa, presented a bill for the appointment of two additional justices for the supreme court for the territory of Utah. The bill passed. Among other bills taken up and passed following: Authorizing the construction of a bridge across the Missouri river, between the city of Chamberlain, in Brule county, and Lyman, in the state of South Dakota. Making appropriation (not to exceed \$100,000) for the purchase of a site and the erection thereon of a brick and iron fireproof structure as a hall of record for the storage of the files of the executive departments in the city of Washington.

At 12:15, on motion of Mr. Hisecock, of New York, the senate went into executive session and at 1:25 adjourned until Monday. Morning business was exhausted in less than 25 minutes, and the senate resumed the consideration of bills on the calendar, the first on the list being a bill of the state of Colorado to support a school of mines. Mr. Cockrell, of Missouri, wanted to know why the state of Colorado should receive this assistance. Mr. Telser explained the great advantages offered by the Colorado school of mines, and the large amount expended by the state in its maintenance. The price was identical with one which passed the senate last session appropriating 50 per cent of the returns from the sale of mining lands in Colorado for the support of the mining school, provided that the amount so appropriated should in no one year exceed the amount of \$12,000, and provided further that the state should annually appropriate at least an equal amount for a like purpose.

Postmasters Appointed.

Among the nominations sent to the senate today by the President were the following: Postmaster at St. Paul, Minn.—W. A. Miller, Staples. Wisconsin—G. Kusterman, Green Bay; G. Frazz, Kenosha; A. E. Pond, Chicago Falls; Charles Smith, Hartford, South Dakota—W. P. Hess, Flandreau. Arion Brought \$150,000.

WASHINGTON, Jan. 14.—Senator Stanford acknowledges that he has sold Arion, the 2-year-old, to J. Malcolm Forbes, but refuses to name the price. He says, however, that the price was the highest ever paid for a horse. It is generally understood that \$150,000 was paid. Forbes is the well-known Boston yachtsman and he already owns Nancy Hanks.

A NEW OPTION BILL.

Senator Washburn Will Introduce a Modification of the Original. WASHINGTON, Jan. 14.—The general impression in congressional circles is that Senator Washburn will be able to steer his option bill through the senate at this session. Senator Washburn continues to receive a good deal of gratuitous advice in regard to the bill and he has read with considerable interest criticisms upon it that have been printed in the Chicago and Minneapolis papers. When asked today if he had read any of these criticisms, he laughingly replied that he had. He was at first inclined not to discuss the matter any further at this time, but finally decided to say this:

"I have noticed that this bill raised a breeze in all the chambers of commerce and boards of trade throughout the country and I am not surprised at this, for, should the bill become a law, like Othello, the occupation of these gentlemen would be gone. I do not wonder that they oppose it bitterly, but in their criticisms the issue has not been fairly met. As a matter of fact, there is not one provision of the bill which in any way interferes with future sales by anyone owning property, and this right is enlarged by allowing the sale of property not owned to be made to manufacturers, consumers and exporters when the property shall be actually delivered. The bill lays no restriction whatever on legitimate business. I am, however, considering several changes in the bill, which I think will make it more satisfactory to all concerned and shall probably introduce a new bill in the course of the next two or three days.

IOWA FOR BLAINE.

The Hawkeye State Is Solid for the Pinned Knight. WASHINGTON, Jan. 14.—Representative Dooliver, of Iowa, in discussing the political situation in the West yesterday, said:

"Iowa has been a Blaine state for many years and is for him yet. The republicans of that commonwealth fairly voted for Blaine in 1876, 1880, 1884, 1888, 1892. An impression prevails, however, that the name of Mr. Blaine will not come before the republican convention, and the republicans are almost

universally in favor of President Harrison as a second choice. I think the Iowa delegation will be solid for Harrison next June. The present administration has been acceptable in every feature. The people of my state are prosperous and contented, and Iowa will give the largest republican majority at the polls next November that she has given since her experience with prohibition and other local issues which have frequently taken her out of the republican column."

OPPOSE THE SHIP CANAL.

Buffalo Business Men up in Arms Against the Canal Scheme. WASHINGTON, Jan. 14.—Representative Dan Lockwood, who returned from Buffalo yesterday, says that city is actually up in arms against the proposition of Senator Davis to build a ship canal around Niagara Falls. The business men of Buffalo have appealed to Lockwood to organize his friends in congress against the measure. They admit that it would be the most severe blow to the commercial interests of their city that it has ever sustained. Buffalo has achieved more distinction from the elevator and canal transfer business than from anything else, and it has been largely at the expense of the farmers and shippers of Minnesota, Iowa, Wisconsin and the Dakotas. Mr. Lockwood fears that the canal around the Falls is bound to be built some day, although he is sure it can be prevented for this year at least.

Blair After Secretary Foster's Scalp. WASHINGTON, Jan. 14.—On motion of Mr. Blair, of Missouri, a resolution has been adopted by the house calling on the secretary of the treasury for information as to whether at any time since the 4½ per cent bonds became due there has been sufficient funds in the treasury to pay the same, and, if so, by what authority he has assumed to continue such bonds at 2 per cent, and why the same were not paid at the time they were due.

Speaker Crisp Sits Up. WASHINGTON, Jan. 14.—For the first time since he was seized with the grip, Speaker Crisp was able to get up and leave his bed yesterday. He sat in his room for quite a little time in a dressing-gown and slippers, and he was progressing toward recovery as well as could be expected.

Secretary Chaplain Resigns. MONTREAL, Que., Jan. 14.—Hon. J. A. Chaplain, secretary of state, has at last carried out his threat and has sent in his resignation from the government to Premier Abbott. He demands that it shall be accepted. It is his intention after the present session to sit in the Ottawa parliament only as an independent member. Chaplain's secession from the government fold simply means the certain defeat of the Tory government. Now that Sir Hector Langevin has gone to obscurity, it is just possible that the premier will endeavor to come to terms with Chaplain, Abbott and Abbott cordially dislike each other, and if Chaplain pleases he can wreck the dominion government in less than three months. The situation at present is decidedly interesting.

Wolsey for Governor-General.

OTTAWA, Ont., Jan. 14.—English advisers state that there is some speculation as to the probable successor of Lord Stanley as governor-general when his term expires next year. Lord Wolsey's name is mentioned. He is at present commander-in-chief in Ireland but Lord Wolsey's health makes him anxious to change and it is said he would be willing to come to Canada if the position were offered him, rather than take the Indian command.

The Geneva Bank Failure.

GENEVA, Wis., Jan. 14.—An examining committee has found the Bank of Geneva to be in straightened circumstances, and the 350 creditors will be fortunate if they realize 70 cents on the dollar. The committee's inventory almost complete, shows deposits of about \$30,000 and the real assets are 30 per cent below that amount. The bank was owned by E. D. Richardson, who died Jan. 2. The collapse is the result of a series of bad loans.

Jay Gould Denies.

NEW YORK, Jan. 14.—Jay Gould in a signed statement denied today the published assertions in the proceedings of the meeting of the presidents' association yesterday that the charges against the C. B. & Q. road, the South Pacific and the Atchafalaya were brought forward by him. He added: "I knew nothing of the charges until they were submitted and read by the chairman at the meeting."

Graves in Prison.

DENVER, Jan. 14.—Dr. Graves spent a quiet day in his cell at the penitentiary at Canon City yesterday and rested well last night. Mrs. Graves still continues very sick at the Valejo. Wells, Macon & Furman, attorneys for Dr. Graves, have the papers drawn asking for a respite of 60 days, which will be presented to Governor Rout, as soon as he returns from Cereceda camp.

TELEGRAPH BRIEFS.

Francis B. Stryker, ex-mayor of Brooklyn, died this morning. Chief Justice Ruger, of the court of appeals, Syracuse, N. Y., died this afternoon.

Mr. Edward Whitely, conservative member of the house of commons for eastern division of Liverpool, is dead. The German Presbyterian church, East Fourth street, New York, was destroyed by fire this morning. The loss will reach \$75,000.

Congressman G. H. Brickner, of Sheboygan Falls, Wis., is confined to his house sick, but his case is reported favorable to a speedy recovery.

The directors of the American Sugar Refining company met in New York today and re-elected Theodore Havemeyer president and John E. Searies secretary and treasurer for the ensuing year.

The iron ship Formosa was chartered yesterday to carry wheat from San Francisco to Liverpool at \$4.80, stated to be the lowest rate ever made here for a wheat charter for a similar voyage.

Pitcher Vickery was released by the Chicago club yesterday. Vickery was secured from Milwaukee when that city flopped from the Western into the American association. Schriver, who was signed with Vickery will be retained.

A note for \$5000 of the firm of Joseph Coates & Co., cotton and wool dealers, New York, went to protest yesterday. The head of the firm admits the house is embarrassed, but no assignment has been made yet. The Washington Manuscript the brilliant statesman from Maine. An impression prevails, however, that the name of Mr. Blaine will not come before the republican convention, and the republicans are almost

THE MESABA RANGE.

Within the year just past The Herald
while urging the building of the Me-
saba railroad and the development of
that range has been repeatedly informed
that 'the road was all on paper, that
there wasn't a dollar back of it, and
that there wasn't a ton of iron ore on this
backbone of the continent.'

Now all is changed. The survey for
the road is completed, the bridges are
being built, and the contract is let for
the completion of the track as early as
August next. Nor is this all, for the
iron range road has its surveys out and
in the spring will run
a branch along this iron clad vertebrae
to aid in opening up a region mar-
velous in wealth and marvellous in opportu-
nities. The ore now in sight fully warrants
the building of both these lines, and we
are assured that when the mines there
begin shipping as they will do next
autumn, ore can be laid down at furnace
doors in Duluth at the nominal price of
\$2 a ton.

Several parties of capitalists and news-
paper representatives have recently
made a tour of the Mesaba mines and
are amazed at what they there behold.
It is confidently predicted that in the
season of '93 this range will have a
greater output than the world-famed
Vermilion, while the activity of the pre-
sent season will give new life and en-
erprise to our iron region and place Du-
luth still further in the lead as the center
of a vast mining and manufacturing in-
dustry. Backed by such new develop-
ments of nature's resources, together with
the vast port now moving to the seaboard,
the coming season and several more to
follow will be banner years in the
material growth of Duluth the solid and
superb. There will be no think and
hope no general rally boom, for we see
no imperative cause or need for any
considerable advance of prices, but the
building of new industries will create an
active market in such locations and
bring a large population to our city.
Thus the development of the Mesaba
range which has now become an assured
and immediate fact, means more than
we have space to tell. It means the
manufacture of pig and structural iron
here on a scale equal to that of Pitts-
burg, and the placing of Duluth in the
front rank among the manufacturing
cities of the world. The Mesaba
mines and their meaning will be fully
and carefully treated in the special
weekly edition of The Herald already
mentioned.

The Herald's sympathies reach out to
all the republican candidates for mun-
icipal honors, but from the standpoint of
political ethics we must in all conscience
aver that unless the grand old party of
pensions and protection is ready to say
that our friend Judge Morris is un-
worthy of the place it owes it itself and
to him to name him for the place again.
He has been a ready, willing and able
speaker in all the campaigns of the past,
and has tried to lift up the party banner
when the hosts of St. Jackson and Ig-
natius made it trail in the dust. For this
and for his other services, as well as for
the recognition of honor and integrity on
the bench, his present candidacy should

be received with favor and consid-
eration. He has served but one term, and
to retire him now would seem a severe
censure on his administration. To go
down if need be with the rest of the
ticket at the polls would be more pleas-
ing than to become a sacrifice in the
house of his friends.

FRONTON'S IRON INDUSTRY.

Mr. James E. Fronto, who is in the
city with the view of establishing a great
iron industry at his Fronton suburb, will
make a tour of the iron ranges before
meeting our citizens in a public way to
exchange ideas on his proposed under-
taking.

The Herald learns that if the bonus of
\$125,000 is subscribed by our people,
another million will be added to it by
Eastern capitalists, and a structural iron
plant, costing about \$400,000, will be im-
mediately begun, to which would soon
be added blast furnaces
and everything necessary to trans-
form iron from the ore to the my-
riad forms in which it is now used for
building and ornamental purposes. The
land companies must immediately
affected will, it is said, put up the greater
part of the bonus asked, and there seems
no doubt that the balance will be quickly
secured from those receiving substantial
benefits. Such a plant in connection
with the Mesaba road which, within the
present year will lay the products of its
mines at our factory doors, means a
quicken of the commercial life of
Duluth and a more rapid growth for our
already rapidly growing city. The Her-
ald hopes to see our people grapple with
this promised enterprise. We need more
smoke stacks and glowing furnaces, and
can use them in our business.

Frank Brown has just been inaugu-
rated governor of Maryland in a manner so
democratic as to greatly disappoint the
most faithful advocates of Jeffersonian
simplicity who have long been accus-
tomed to elaborate inaugural receptions,
and a woman is at the bottom of it all.
Mrs. Brown is a Baltimore beauty pos-
sessed of a fortune in her own right, and
recently she sent a lot of diamonds to a
jeweler to be reset in a band for her
finger. The jeweler gave out that her
husband was making a crown for her to wear at
the inauguration of her husband and the
aid if he wants to see himself as others
see him.

Every candidate for mayor should
have his portrait in the Midwinter Her-
ald if he wants to see himself as others
see him.

"What is your boy's name?" said a friend to
a Duluth railroad man as the little fellow
dashed up to his papa for paternal protection.
"We named him Charles at first, but we have
had to change it since coming to Duluth."
"That's funny."
"Could it change up here, you know?"
"Yes."
"Well, we call him Flannel now."
"Warm-blooded little fellow, eh?"
"Not exactly that, but we are going to
need more territory pretty soon."
"Why, the legislature enlarged our munici-
pal area to sixty square miles last winter," said
a thoughtful Duluthian as he sniffed the north
wind this bright wintry morning.

"Why, wasn't it big enough before," said a
candidate at-large, one delegate-at-large.
"Yes, it was big enough before, but we are go-
ing to need more territory pretty soon."

The Herald yesterday withdrew three
possible mayoralty candidates from the
field—Messrs. F. B. Daugherty, Simon
Clark and Henry Truelsen. It is again
called upon today to extend this list by
adding thereto the name of Herbert
Buchanan Moore who, though a gentle-
man of the knight errant class, is not
looking for municipal honors. The Her-
ald regrets that the list of gentlemen of
whom it would be glad to say kind words
is thus growing beautifully less, but to
our wounded feelings with the thought
that our loss is their gain. May they
live long and may it be so again
and again.

The Herald's Midwinter Weekly will
be a star among her sisters, shining with
more than its wonted glory. Everybod-
y should have a few copies to send to
Eastern friends. The edition will be
ordered before the first pages go to
press. All orders should be sent in
early that no one need be disappointed
this time. Our Dakota edition was ex-
hausted long before the demand for
copies ceased, and we hope to avoid such
circumstance again.

The young Duke of Clarence, eldest

to the British throne, is dead. Royalty

to the English people, and the untimely
demise of the duke will be sincerely
mourned. The aged and beloved queen
as well as the rallying and dissipated
prince will receive in their bereavement

million subjects.

The republican city convention having
been called for the last day on which the
certificates of candidates can be filed
with the clerk, if a dead lock should re-
sult and the convention be held in ses-
sion all night, why then, say the dem-
ocrats, pop goes the weasel, and we are
the people, or words to that effect. It
would then be a neck and neck race be-
tween the Old Hickory and hayseed
parties with a probability that the
foresters would outrun the grass-hoppers.

The death of Cardinal Manning which
occurred today in London, removes from

great crusade, the ranks close up and

the work like their souls goes triumph-
antly marching on.

Our very esteemed friend, E. C. Holli-
day, is it is said, the leading candidate
for alderman in the Second ward. His
name will not be on the printed ticket,
but he is to succeed to the vacancy when
Charles Albert Augustus becomes may-
or and lets his aldermanic job go by de-
fault. Holiday would come in as a sort
of Christmas number.

We almost owe an apology to Alder-
man Long for calling him Charles Alex-
ander. We learn that his real name is
Charles Albert Augustus Long, but from
a sense of modesty he drops one A
in writing his signature and thereby
classes himself as A. I.

Senator Sawyer has introduced a bill
to make Ashland, Wis., a port of entry.
Another bill will be pushed to confer
similar advantages on Superior, and
then a merry war will be waged by the
badder burgers. They have our best
wishes.

We understand that if Charles Long
is elected mayor he will use his influ-
ence to make Henry Haskins president
of the council. This would be a horse
in Hugo, sort of fillyreg work as it
were.

The New York senate has passed the
house bill for counting the noses of the
sons and daughters of New York. The
enumeration is to begin Feb. 16, and con-
tinue till Tammany cries quits.

We are so much interested in the suc-
cess of Charles Albert Augustus Long,
that we shudder to see him hit his
trap. He will get his fingers pinched
yet.

The political race is not always to the
swift nor the battle to the strong, not by
a darn sight, as Patrick Henry once re-
marked; it is to the vigilant, the active,
the brave.

Mayor Davis has a solid phalanx of
about a thousand votes to start on, and
he will make the other boys hum to
catch up.

Every candidate for mayor should

the work like their souls goes triumph-
antly marching on.

Our very esteemed friend, E. C. Holli-
day, is it is said, the leading candidate
for alderman in the Second ward. His
name will not be on the printed ticket,
but he is to succeed to the vacancy when
Charles Albert Augustus becomes may-
or and lets his aldermanic job go by de-
fault. Holiday would come in as a sort
of Christmas number.

Senator Washburn's Cradle.

Both of the Minnesota senators are
self-made, though Washburn comes of a
noted family, and all of his brothers have
made fortunes and fame. Old Israel
Washburn, of Maine, had seven sons,
and the cradle in which the boys were
rocked is kept in Norway's library in
Maine. It is made of pine boards an
inch thick, rudely cove-detailed together,
and its solid pine rockers are shaped
like half moons. It is painted a dark
green and has been broken by age. In
Senator Washburn was rocked. Two
of his brothers who were ministers in
whiskers are dead, and the other three
foreign congressmen and two govern-
ment. The father of all the Washburns
was a farmer and the present United
States senator was raised on a farm, and
until he was 20 he worked in the corn
fields and hayfields in the summer and
went to the common schools in the win-
ter. He was sent to Bowdoin college
and studied law with his brother Israel.
His section went out to Minneapolis, where
he is said to be a Calvinistic cut and
his blue eyes look out of severe and cul-
tured features. He is very popular in
his section and is a man of weight. He
has a magnificent house in Minneapolis
and rents at Washington the pris-
on-like structure which belongs to Senator
Edmunds.

PRACTICAL POLITICS.

Mr. Long and His Supporters Making a Vigorous Fight for the Republican Nomination.

The Democratic Primaries to be Held To Night; The Municipal Judgeship.

Charles Zell, the Principal Witness in the Lind Case, Himself In Trouble.

The democratic caucuses will be held this evening and delegates to the city convention named and aldermen in the several wards nominated. The city convention will be largely formal. There is at present no democratic aspirant for the majority of any prominence but Mr. d'Audremont. It is probable that he will be nominated without opposition. Mr. Clark would have proved a formidable rival, but by his own choice he is out of the race. A bar meeting of democrats is being held this afternoon to nominate candidates for the municipal and special judgeships. There is little doubt that C. O. Baldwin will be named for the first office and probably Mr. Winje will be the candidate of the democratic attorneys for the second, but this last is not so certain.

A meeting of the Tilden club was held last evening and a constitution adopted and the time for the bar meeting fixed. There was also some talk concerning the ward candidates for aldermen, but it was decided to take no action in this matter. The most likely candidates for aldermen as the state now stands are Morris Thomas in the Second, Robert Louden in the Fourth, W. B. Dixon in the Third and J. C. Helm in the Sixth. It will not be very safe, however, to indulge in much guessing on aldermanic results until after the caucuses are held.

In the republican camp there is still much uncertainty. Mr. Holliday, who is managing Mr. Long's campaign, said today: "There is one thing I wish you would do for me. You have stated that Mr. Long will be a candidate for mayor in any event. This is not the case. Mr. Long will go before the republican convention as an aspirant for its honors. If defeated, there he will withdraw from the fight. He will not go before the republican convention at all. This statement is official. If Mr. Long is not nominated by the republican convention, he will not run." Mr. Long is not yet certain of the republican nomination, however, and this official announcement of his manager might with great propriety be preserved for future reference. Mr. Long is in the hands of his friends but is doing a large amount of active work for himself, and any one who wants to beat him would be wise to begin to do hard work before it is too late. Mr. Davis is still non-committal, but will probably go before the republican convention as a candidate for the endorsement of the people's party for himself and his administration. The republican nominations for the city judgeships are not much discussed, but they are the subject of a subdued but active battle. The prospects now are that Page Morris will be renominated, but this is very uncertain. Ex-Clerk Holden of the court is a candidate for the office of special judge and is flatter himself that his chances are bright. The republican slate, however, is still in doubt among the "bosses," and until they come to some conclusion, the situation is liable to a sudden overturning at any time. The city clerkship is another matter which has been very little discussed, it is not at all likely that there will be many candidates for the position. The city has never had a more capable, willing and accomplished clerk than Frank Burke and there is scarcely a shadow of a doubt that he will be his own successor.

TURN ABOUT.

Mr. Mell, Who Appeared Against Augusta Lind, in Trouble on His Own Account.

At the hearing of the case against Augusta Lind, charged with adultery, one part of the testimony produced, which it was not considered expedient to print at the time, was that Charles Mell, the principal witness against the wife, was living in the Lind house with a girl who was about to become a mother and to whom he had never been married. This testimony has been recalled by the arrest of Mell last evening by Henry Haskins, agent of the Humane society. He went yesterday to the Lind "shack" on Tenth street and found there the girl in question. She is only 17 years of age and has no friends or relatives in Duluth. Her name is Lina Hanson and she has been living with Mell for some months. When found by Officer Haskins she was alone in the shack and without fuel or provisions. The story she tells is the old, old one which never loses its sympathetic pathos of loving "not wisely but too well." She had gone to Mell upon his promise to marry her. He had a portion of her neglected her promise, but had shamefully neglected her as well. Through Mr. Haskins' efforts the girl was cared for by the neighbors last night and was taken to the hospital this morning where she will be taken care of by the county poor authorities. Mell has not yet been arraigned, but a complaint will be made out against him. If the girl can be induced to appear against him the charge will be seduction on a promise of marriage. The penalty for this offense is five years imprisonment. On any other charge the offense can be given only a light punishment.

The Coldest Yet. Today was the coldest of the year, at 8 o'clock this morning the thermometer in the United States signal office registered 20 degrees below. The amateur thermometers about town marked any place from 25 to 30 degrees below. The present spell of cold weather is one of the most severe known here for a long time. The thermometer has been above zero only three days this month, and two of those were Jan. 1 and 2, before the cold snap began. For nearly two weeks the mercury has been anywhere from 5 to 20 degrees below. The coldest weather reported this morning was at Winnipeg, 40 degrees below.

President J. J. Hill, of the Great Northern, has given 20,000 pounds of flour to the Russian famine fund.

The adjourned meeting of the county board will be held tomorrow afternoon at the office of Auditor LaVague.

After the city convention is held tomorrow the democrats will inscribe on their banner the simple and catching words, "Vote for Dote."

A portion of the party of Southern iron men who came down from the Mesaba yesterday leave for home this afternoon. The others will remain until Monday.

The several Prentice cases in the United States circuit court at St. Paul against Third division property owners have been continued till the next term.

The tug Fiske returned this morning from its trip to Grand Marais and is tied up at the Booth dock. Jack Frost and Boreas have no terrors for the little wanderer.

Democratic primaries will be held in all the precincts of the city from 7 to 8:30 o'clock this evening and the convention will be held in the city hall at 2 p. m. tomorrow.

The concert at the Bethel this evening will begin at 7:30. This early opening is made necessary on account of subsequent engagements on the part of some who will appear.

The regular meeting of the Young People's society of St. Paul's church will take place this evening. Mrs. Jarley's celebrated collection of wax work figures will be on exhibition.

Secretary Thompson had a lengthy communication in the St. Paul Pioneer Press of the 11th instant in which he fully explained and defended Duluth's position in the forestry fight.

Theodore Fifer was arraigned before the police court this morning charged with failing to provide support for his wife and family. He pleaded not guilty and will have a hearing this afternoon.

Chief Engineer J. G. Est, of the Iron Range road, with a crew of men, started on Monday on the survey of the new line from a point about two miles below Mesaba station into the Mesaba iron region.

The specifications for the new building which the Boston capitalists are erecting at the corner of Superior street and Second avenue west call for a foundation capable of holding a building twelve stories in height.

The annual exhibit of the Duluth Turnverein will be given this evening at Turner hall and will be an affair worthy of patronage. There will be an athletic program, good music and an address by President Ankele, of the association.

The following variations in temperature were recorded at the Pioneer Press company's office, hotel St. Louis, 326 Superior street: 12 m., -6; 3 p. m., 3/6 p. m., 2; 9 p. m., -7; 7 a. m., -14; 9 a. m., -16; 12 m., -12. Maximum, 6; minimum, -20; daily range, 26.

G. W. Horton, one of Mayville's, N. D., most prominent business men, accompanied by his wife and Master Hale Horton, made The Herald a pleasant call this morning. They are on their way East but will spend a couple of weeks in Duluth. They are at the Brighton.

C. McC. Reeve, secretary of the World's fair commission for Minnesota, has sent out circulars to probable exhibitors, urging the importance of making early application for space, as blanks must be forwarded to the would-be exhibitor, for the World's fair managers require all applications to be made on blanks furnished by them.

The special midwinter number of the Weekly Herald will be a handsome edition of from 40 to 45 pages, treating of all the forces that work together to make the greatness of Duluth. A few copies should go into every home in Duluth. It will be issued about January 25th, and to avoid disappointment, orders for copies should be left at The Herald office, 1000 Commercial street, as early as possible.

Now, 10,000 copies will be printed.

WORLD OF COMMERCE

Stocks Were Weak and Dull Today, Opening Lower But Gradually Recovering the Decline Before the Close.

Various Estimates of the Unthreshed Increment Now Stacked in the Grain Field of the Great Northwest.

The Grain Market Generally Dull in Both Cash and Futures With a Few Large Sales in Round Lots.

The market opened up 1/4c today, but no trading was done in the first forty minutes. Prices strengthened up to 90 3/4c on May from the opening at 90 1/2c and eased off to 90 1/2c. Cash also strengthened up 1/4c before noon above the closing figures of yesterday. The market here ruled very dull during the session, Cables reported the markets very inactive and feeling weaker. The Associated Press sends out from Odessa the report that official circles there say that the prohibition of cereal exports will be renewed in April. The exports of wheat and flour from New York yesterday amounted to 725,342 bu.

The Chicago Tribune has been investigating the condition of unthreshed wheat in the Northwest and reports that 3,200,000 bu of wheat in shock would be a total loss. This is regarded as an overestimate. The Price Current states that the wheat crop condition is not so bad as the estimate is regarded by the Current as excessive. The Russian department of agriculture reports that the condition of the crop for next year in the famine districts is much better than a year ago. The quantity of wheat and flour on passage to Europe has increased during the past week by 64,000 bu.

The close was dull, steady and very irregular at 1/4c to 1/2c in advance of yesterday's closing figures.

Cash No. 1 hard ruled dull and neglected, closing at 85 1/2c. On track wheat closed firm with bids at 87 1/2c. Cash No. 1 northern sold late at 85c, but followed the decline in Chicago, closing at 84 1/2c. On track wheat closed firm with bids at 86 1/2c. Cash No. 2 northern sold early at 78 1/2c, ruling dull but advancing to the close at 79 1/2c. No. 3 spring, sold in the forenoon at 72 1/2c, ruling dull, closing at 72 1/2c. Rejected sold late at 60 1/2c and later at 61c, ruling dull and closing at 60 1/2c.

January No. 1 hard ruled dull, closing at 84 1/2c. May No. 1 hard ruled dull and neglected, closing at 91 1/2c. May No. 1 northern ruled fairly, closing at 90 1/2c. On track wheat opening an hour late with sales at 90 1/2c, which was dull at 90 1/2c. It changed hands in large round lots.

Millstuffs ruled steady, closing at \$12 for bran and shorts; 20-pound sacks free of extra charge.

Flax closed dull at 91 1/2c.

Grain Inspection. No. 1 hard, 6 cars; No. 1 northern, 10; No. 2 northern, 2; No. 3, 7; no grade, 8; rejected, 3; 45. Receipts in bushels, wheat, 32,300.

Cars on Track. Northern Pacific, 3; St. Paul & Duluth, 3; Eastern, 14; total, 20; last year, 12.
